

Select your Finishing Touch

Good

Horizontal siding with coordinating trim elements gives a clean, classic look.

Better

Adding Board & Batten to a gable, bump out, or dormer adds contrasting architectural detail.

Best

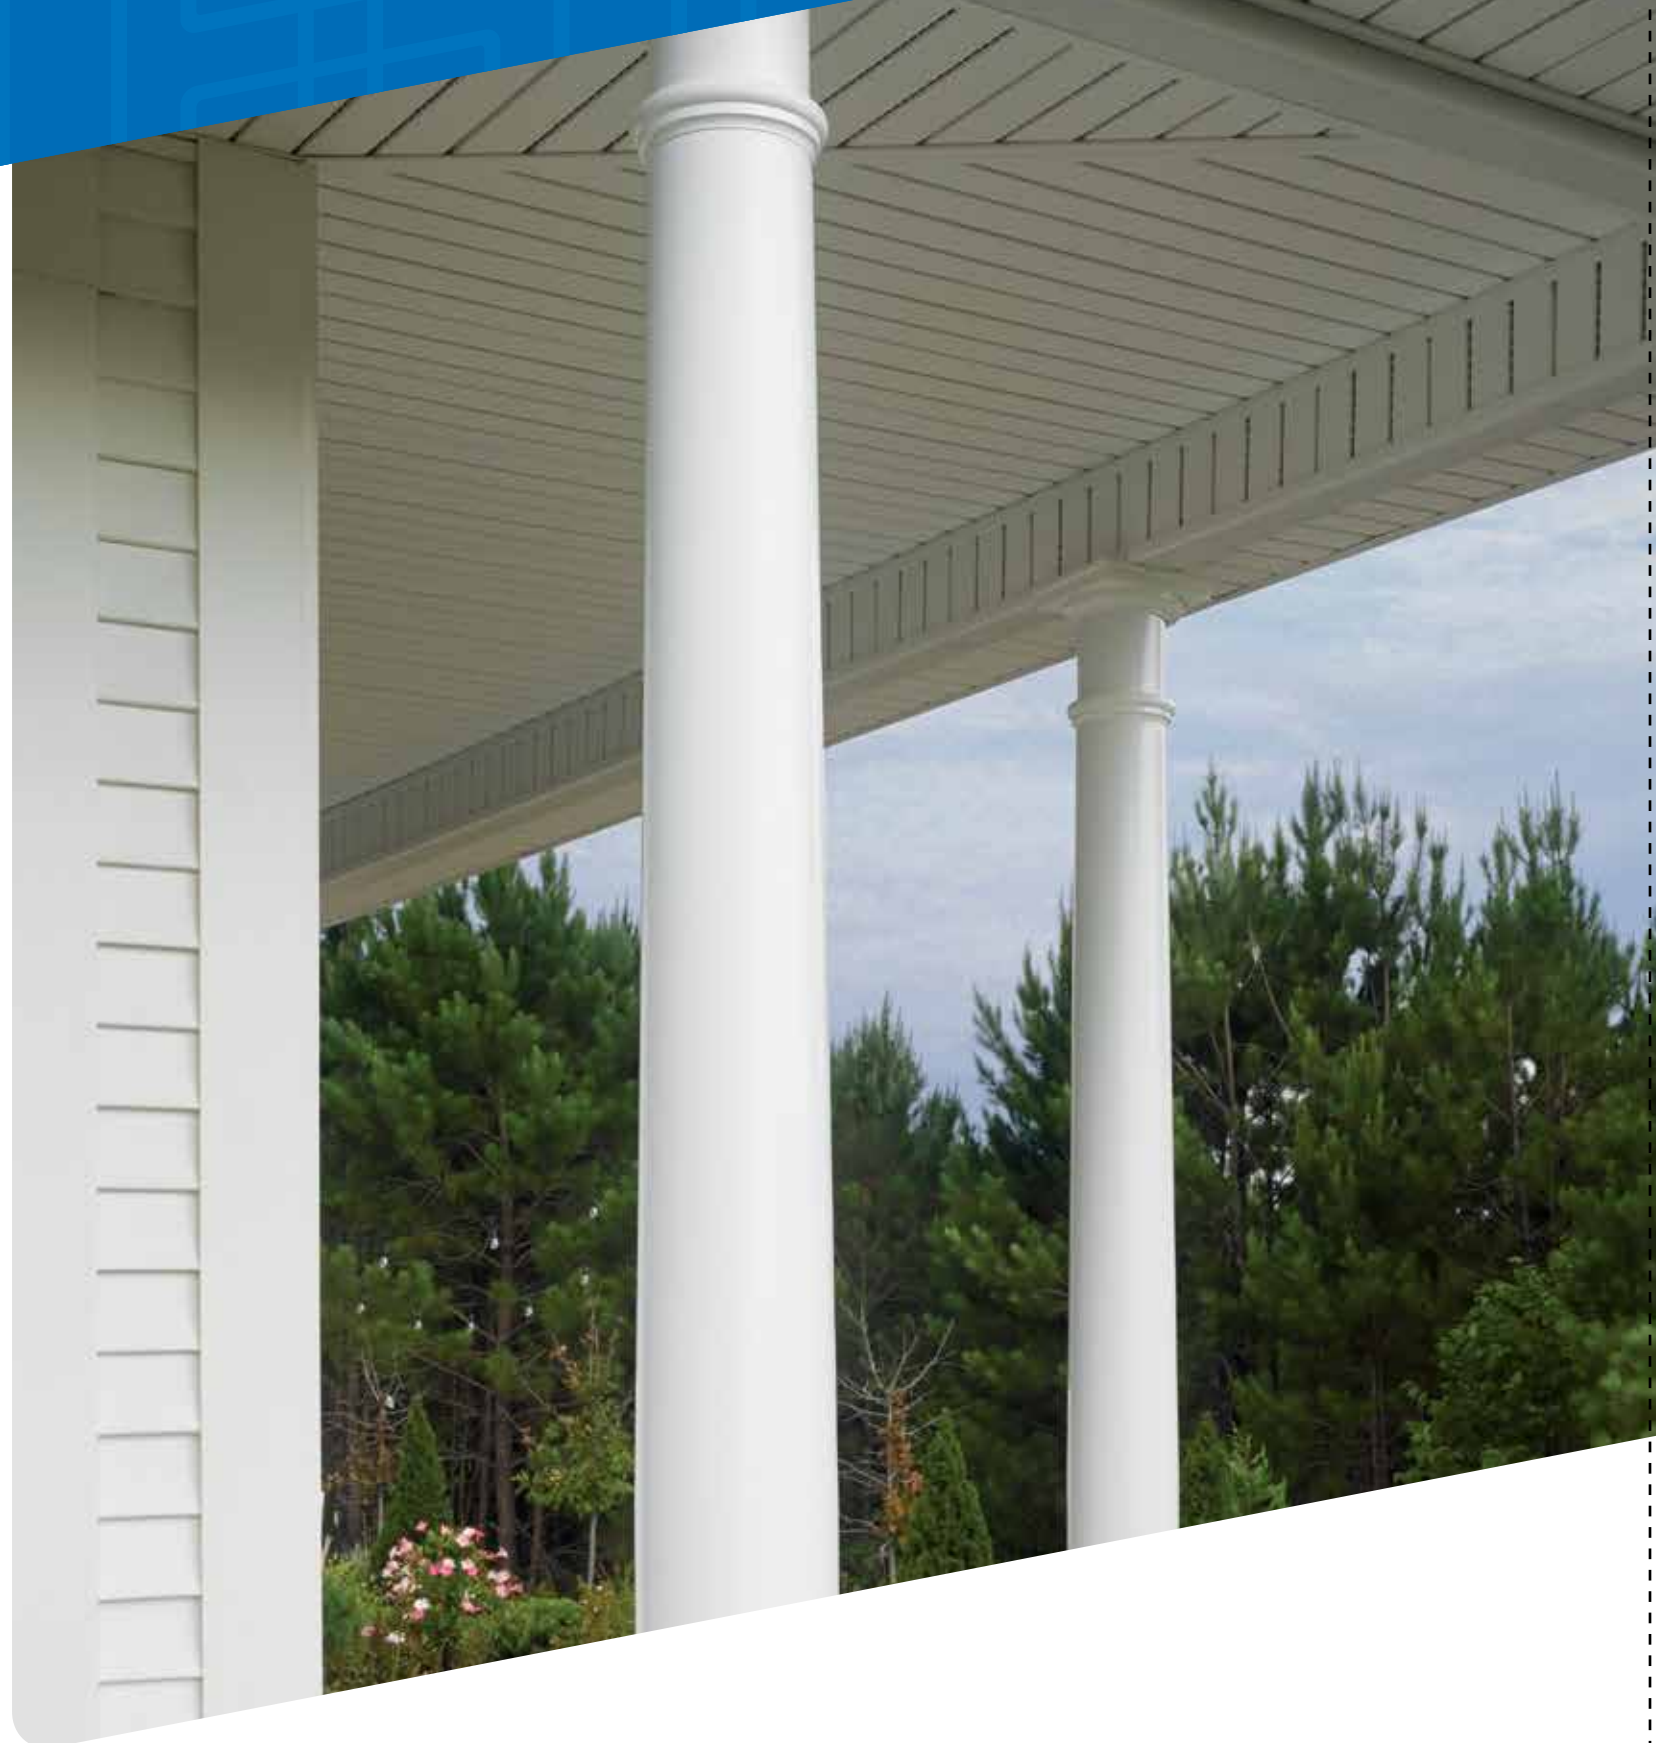

Selecting STONEfaçade™ and Cedar Impressions shakes and siding in contrasting colors and adding Restoration Millwork® trim elements creates a bold look that stands out.

Vinyl Carpentry® Soffit & Vertical Siding

Vinyl Carpentry®

Soffit and Vertical Siding

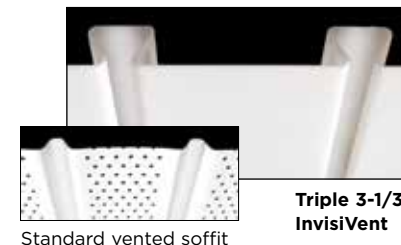

PROPER VENTILATION IS VITAL

Protection against damage to the roofing materials and structure, increase comfort inside the home and energy savings.

Hidden vents provide a smooth, flat non-perforated surface versus most vented soffits with unsightly perforations.

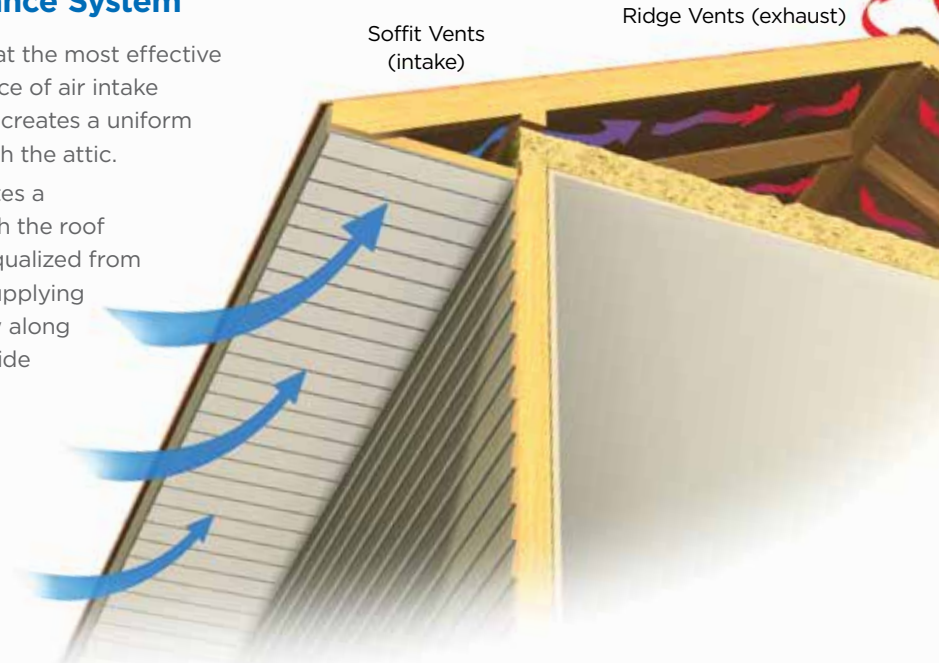

Triple 3-1/3" InvisiVent offers at least 50% more ventilation than most standard vinyl soffit, providing more than 10" of net-free air intake.

The Air Balance System

Experts agree that the most effective system is a balance of air intake and exhaust that creates a uniform flow of air through the attic.

This system creates a condition in which the roof temperature is equalized from top to bottom, supplying a uniform air flow along the entire underside of the roof deck.

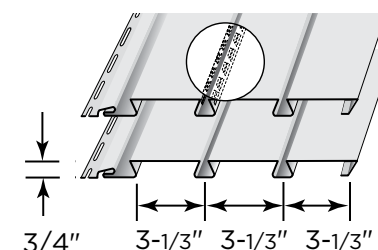

INVISIVENT TRIPLE 3-1/3" INVISIVENT® AND SOLID SOFFIT

Triple 3-1/3" InvisiVent has the highest ventilation performance of any vinyl soffit available today.

- Triple 3-1/3" style invisibly vented.†
 - The only vinyl soffit to provide more than 10" of net-free air per sq. ft.
 - Concealed intake vents provide a smooth appearance.
- Solid available for vertical applications.
- Matte finish looks like freshly painted wood.
- Deep 3/4" panel projection creates sharp definition.
- Heavy-duty .044" thickness provides increased rigidity.
- Available in a variety of low-gloss, popular colors.

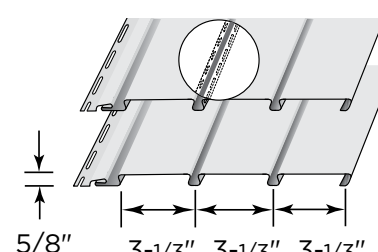

PERIMETER™ TRIPLE 3-1/3" HIDDEN VENT AND SOLID SOFFIT

Perimeter Triple 3-1/3" offers a smooth, flat surface and provides the perfect balance of aesthetics and performance.

- Hidden Vent and Solid Styles.†
- Available in a variety of low-gloss colors.
- .040" thickness.
- Matte finish looks like freshly painted wood.
- Provides up to 9.65" of net-free intake area – hidden vent.
