LIQUID BOOT®

LEED™ PRODUCT INFORMATION

LIQUID BOOT is a premium quality gas vapor mitigation barrier membrane that consists of a water-based asphalt emulsion and latex rubber. LIQUID BOOT has been successfully used to provide gas and water vapor protection on thousands of projects worldwide.

MANUFACTURING LOCATION

CETCO certifies that LIQUID BOOT is manufactured in Cartersville, GA. If your project falls within a 500-mile radius of this location, the product is considered to be a locally produced material and can help contribute to earning Materials & Resources - Credit 5.1.

RECYCLED CONTENT

CETCO certifies that LIQUID BOOT does not contain pre-consumer or post-consumer recycled material.

VOC CONTENT

CETCO certifies that LIQUID BOOT contains 0 g/L Volatile Organic Compounds (VOCs).
