VOLCLAY WB-ADHESIVE

LEED™ PRODUCT INFORMATION

VOLCLAY WB-ADHESIVE is a water-based liquid adhesive consisting of water, latex rubber and a very small amount of hydrocarbon solvent. This adhesive is used to secure Waterstop-RX to concrete and other sound building substrates.

MANUFACTURING LOCATION

CETCO certifies that WB-Adhesive is manufactured in St. Louis, MO 63110. If your project falls within a 500-mile radius of this location, the product is considered to be a locally produced material and can help contribute to earning Materials & Resources - Credit 5.1 and Credit 5.2.

RECYCLED CONTENT

CETCO certifies that WB-Adhesive is manufactured with no pre-consumer material recycled content by weight; with no post-consumer material recycled content. Thereby the product does not contribute to earning Materials & Resources - Credit 4.1 and Credit 4.2.

VOC CONTENT

CETCO certifies that VOLCLAY WB-ADHESIVE contains 50 g/L or less Volatile Organic Compounds (VOCs).

CETCO is committed to the use of recycled content in the manufacturing of Volclay waterproofing products and supports the United States Green Building Council (USGBC) by participating as an USGBC Industry Member.
