FastBridge™ Clip (FB68)

68mil (14 Gauge) U-Channel Lateral Bracing Clip

The ClarkDietrich FastBridge™ clip is used to secure U-Channel or Cold Rolled Channel (CRC) to structural wall studs when used in load-bearing or curtain wall applications. The wall stud friction fit design allows for as little as one screw for the connection to the U-Channel.

The FastBridge™ clip is a stiffened, G90 galvanized steel clip that's tested and designed to facilitate the rapid, efficient installation of 1-1/2" U-Channel lateral bracing for exterior curtain wall framing, load-bearing walls or high interior partitions constructed of structural studs.

FastBridge™ clips are fastened using #10 self-drilling screws driven through the clip hole into the U-Channel. More than one screw may be need depending on design. Design loads & tables can be found at: www.clarkdietrich.com/FastBridge

The FastBridge™ clip should not be used in studs over 8" wide.

Product Data & Ordering Information:

Material: 50ksi yield strength

Coating: G90

Thickness: 14ga (68mil), 0.0713" Design Thickness, 0.0677" Min. Thickness Dimensions: Made to fit over 1-1/2" U-Channel and inside a 1-1/2" punchout

Packaging: 200 pieces per bucket

Product weight: 0.21 lb/piece

ASTM & Code Standards:

- Galvanized sheet steel meets or exceeds requirements of ASTM A653
- SDS & Product Certification Information is available at www.clarkdietrich.com/SupportDocs

Alternative Products:

SwiftClip™ (LS-Series), Spazzer® 5400 Bridging Bar

05.40.00 (Cold-Formed Metal Framing)

 68mil (14ga) heavy-duty clip for use with 16ga to 12ga structural studs
