

LE685 SwiftClip™ LE-Series™ 14 Gauge (68mil) Support Clip

SwiftClip L-Series support clips are used in multiple construction projects, specifically in conjunction with structural studs and track. The L-shaped clips fit between the stud flanges, so that shorter length clips do not need to be ordered. These labor time-savers include prepunched holes for quicker screw attachments, and are punched to accommodate for CRC lateral bracing connections.

For allowable loads for multiple connection options, reference the Clip & Connector Catalog or www.clarkdietrich.com/SwiftClip for more information.
