

BUILDING STRENGTH

Does your project require a unique product? Dayton has an underlayment to fit any of your project's specifications:

- ◇ CDPH v1.2 Tested
- ◇ LEED Certified
- ◇ OSHA Respirable Crystalline Silica Compliant
- ◇ Pumpable
- ◇ Trowelable
- ◇ High Compressive Strength

UNDERLAYMENTS

Underlayments are used to level subfloors prior to installing tile, carpeting and other floor coverings. Floor levelers can be cement-based or gypsum-based. All Dayton levelers are cement-based, high strength and water insensitive.

SELF-LEVELING

Econolevel™*

Economical, cement-based, pourable/pumpable interior floor underlayment.

LevelLayer®*

Premium, cement-based, pourable/pumpable interior floor underlayment.

TROWEL-GRADE

Sure Finish™**

Rapid setting, cement-based, trowel applied skim coat, floor underlayment and repair. Can be used on exterior walls that are to be coated.
