CONCRETE GRAY

LIGHT GRAY

MEDIUM GRAY

TILE RED

DARK GRAY

BLACK

** All coatings are not available in all colors – refer to individual product technical data for color availability.*

The colors shown are simulated. Each has been color matched as closely as possible to production standards. Variations in final shades may occur due to surface absorption, light refraction, texture, and coating thickness. The Euclid Chemical Company always recommends a mock up of the product to ensure the aesthetic intent is achieved. Two coats are recommended on all colored products to achieve full color depth.
