Section 1: Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product identifier
Product Name · Membrane PreWash Cleaner

1.2 Relevant identified uses of the substance or mixture and uses advised against
Relevant identified use(s) · Roofing

1.3 Details of the supplier of the safety data sheet
Manufacturer · Firestone Building Products Company
200 4th Avenue S
Nashville, TN 37201-2208
United States
firestonemds@bfdp.com

Telephone (General) · 800-428-4442

1.4 Emergency telephone number
Manufacturer · (800) 424-9300 - CHEMTREC
Manufacturer · (703) 527-3887 - CHEMTREC - International

Section 2: Hazards Identification

EU/EEC

2.1 Classification of the substance or mixture
CLP · Skin Corrosion 1C - H314

2.2 Label Elements
CLP

DANGER

Hazard statements · H314 - Causes severe skin burns and eye damage.

Precautionary statements
Prevention · P260 - Do not breathe mist, vapours and/or spray.
P264 - Wash thoroughly after handling.
P280 - Wear protective gloves/protective clothing/eye protection/face protection.

Response · P304+P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P310 - Immediately call a POISON CENTER/doctor.
P303+P361+P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P321 - Specific treatment, see supplemental first aid information.
P363 - Wash contaminated clothing before reuse.

P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P301+P330+P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

Storage/Disposal

- P405 - Store locked up.
- P501 - Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

2.3 Other Hazards

CLP

- According to Regulation (EC) No. 1272/2008 (CLP) this material is considered hazardous.

United States (US)

According to: OSHA 29 CFR 1910.1200 HCS

2.1 Classification of the substance or mixture

OSHA HCS 2012

- Skin Corrosion 1C
- Serious Eye Damage 1
- Reproductive Toxicity 2
- Specific Target Organ Toxicity Single Exposure 2

2.2 Label elements

OSHA HCS 2012

DANGER

Hazard statements

- Causes severe skin burns and eye damage.
- Causes serious eye damage
- Suspected of damaging fertility or the unborn child.
- May cause damage to organs.

Precautionary statements

Prevention

- Obtain special instructions before use.
- Do not handle until all safety precautions have been read and understood.
- Do not breathe mist/vapours/spray.
- Wash thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- Wear protective gloves/protective clothing/eye protection/face protection.

Response

- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
- IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
- Immediately call a POISON CENTER or doctor/physician.
- Specific treatment, see supplemental first aid information.
- Wash contaminated clothing before reuse.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
- IF exposed or concerned: Call a POISON CENTER/doctor.
- IF exposed or concerned: Get medical advice/attention.

Storage/Disposal

- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

2.3 Other hazards

OSHA HCS 2012

Canada
According to: WHMIS 2015

2.1 Classification of the substance or mixture
WHMIS 2015

- Skin Corrosion 1C
- Serious Eye Damage 1
- Reproductive Toxicity 2
- Specific Target Organ Toxicity Single Exposure 2

2.2 Label elements
WHMIS 2015

**DANGER**

**Hazard statements**
- Causes severe skin burns and eye damage.
- Causes serious eye damage
- Suspected of damaging fertility or the unborn child.
- May cause damage to organs.

**Precautionary statements**

**Prevention**
- Obtain special instructions before use.
- Do not handle until all safety precautions have been read and understood.
- Do not breathe mist, vapours and/or spray.
- Wash thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- Wear protective gloves/protective clothing/eye protection/face protection.

**Response**
- **IF INHALED:** Remove person to fresh air and keep comfortable for breathing.
- **IF ON SKIN (or hair):** Take off immediately all contaminated clothing. Rinse skin with water or shower.
- **Wash contaminated clothing before reuse.**
- **Specific treatment**, see supplemental first aid information.
- **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- **IF SWALLOWED:** Rinse mouth. Do NOT induce vomiting.
- **If exposed or concerned:** Call a POISON CENTER/doctor.
- **If exposed or concerned:** Get medical advice/attention.

**Storage/Disposal**
- Store locked up.
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

2.3 Other hazards
WHMIS 2015

- In Canada, the product mentioned above is considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

### Section 3 - Composition/Information on Ingredients

3.1 Substances

- Material does not meet the criteria of a substance in accordance with Regulation (EC) No 1272/2008.

3.2 Mixtures

See Section 16 for full text of H-statements.

### Section 4 - First Aid Measures

#### 4.1 Description of first aid measures

- **Inhalation**: Administer oxygen if breathing is difficult. Do not use mouth-to-mouth method if victim inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Give artificial respiration if victim is not breathing. Move victim to fresh air.

- **Skin**: For minor skin contact, avoid spreading material on unaffected skin. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Remove and isolate contaminated clothing. If irritation develops and persists, get medical attention.

- **Eye**: In case of contact with substance, immediately flush eyes with running water for at least 20 minutes. If eye irritation persists: Get medical advice/attention.

- **Ingestion**: Do NOT induce vomiting. Drink 1 - 2 glasses of water. Do not give anything by mouth to an unconscious person. Obtain medical attention immediately if ingested.

#### 4.2 Most important symptoms and effects, both acute and delayed

- Refer to Section 11 - Toxicological Information.

#### 4.3 Indication of any immediate medical attention and special treatment needed

- Notes to Physician: All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

### Section 5 - Firefighting Measures

#### 5.1 Extinguishing media

- **Suitable Extinguishing Media**: LARGE FIRES: Dry chemical, CO2, alcohol-resistant foam or water spray. SMALL FIRES: Dry chemical, CO2 or water spray.

- **Unsuitable Extinguishing Media**: No data available

#### 5.2 Special hazards arising from the substance or mixture

- **Unusual Fire and Explosion Hazards**: Containers may explode when heated.

- **Hazardous Combustion Products**: Non-combustible, substance itself does not burn but may decompose upon heating to produce corrosive fumes.
5.3 Advice for firefighters

- Structural firefighters' protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is possible.
- Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection.
- Wear positive pressure self-contained breathing apparatus (SCBA).
- SMALL FIRES: Move containers from fire area if you can do it without risk.

Section 6 - Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions
- Do not walk through spilled material. Ventilate enclosed areas. Wear appropriate personal protective equipment, avoid direct contact. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Do not breathe mist/vapours/spray. Avoid contact with skin, eyes, and clothing.

Emergency Procedures
- As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (150 feet) in all directions. Keep unauthorized personnel away. Stay upwind. Keep out of low areas. Do not get water inside container. Stop leak if you can do it without risk.

6.2 Environmental precautions
- Avoid release to the environment.

6.3 Methods and material for containment and cleaning up

Containment/Clean-up Measures
- Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers.

6.4 Reference to other sections
- Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

Section 7 - Handling and Storage

7.1 Precautions for safe handling

Handling
- Handle and open container with care. Use only with adequate ventilation. Use caution when combining with water; DO NOT add water to corrosive liquid, ALWAYS add corrosive liquid to water while stirring to prevent release of heat, steam and fumes. Wear appropriate personal protective equipment, avoid direct contact. Do not breathe mist/vapours/spray. Avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

7.2 Conditions for safe storage, including any incompatibilities

Storage
- Store in a cool, dry, well-ventilated place. Keep away from incompatible materials. Keep container tightly closed. Do not store this material in containers made of aluminum.

7.3 Specific end use(s)
- Refer to Section 1.2 - Relevant identified uses.

Section 8 - Exposure Controls/Personal Protection

8.1 Control parameters

Exposure Limits/Guidelines
- No exposure limits/guidelines available for the material or the components.

8.2 Exposure controls
Engineering Measures/Controls

• Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Personal Protective Equipment

Respiratory

• Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

Eye/Face

• Wear eye/face protection - chemical splash goggles, - face shield.

Skin/Body

• Wear appropriate gloves. Wear long sleeves and/or protective coveralls.

Environmental Exposure Controls

• Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways. Follow best practice for site management and disposal of waste.

Section 9 - Physical and Chemical Properties

9.1 Information on Basic Physical and Chemical Properties

9.2 Other Information

• No additional physical and chemical parameters noted.

Section 10: Stability and Reactivity

10.1 Reactivity

• No dangerous reaction known under conditions of normal use.

10.2 Chemical stability

• Stable
10.3 Possibility of hazardous reactions
- Hazardous polymerization will not occur.

10.4 Conditions to avoid
- Incompatible materials. Excess heat.

10.5 Incompatible materials
- Avoid contact with the following: Strong oxidizing agents, Strong acids and strong bases, Corrosive to some metals. Avoid contact with metals such as: aluminum.

10.6 Hazardous decomposition products
- Decomposition products depend upon temperature, air supply and the presence of other materials. Decomposition products can include and are not limited to: Carbon oxides.

Potential Health Effects

Inhalation
   Acute (Immediate) • May cause respiratory irritation. May cause corrosive burns - irreversible damage.
   Chronic (Delayed) • Repeated or prolonged exposure to corrosive fumes may cause bronchial irritation with chronic cough.

Skin
   Acute (Immediate) • Causes severe skin burns and eye damage.
   Chronic (Delayed) • Repeated or prolonged exposure to corrosive materials will cause dermatitis.

Eye
   Acute (Immediate) • Causes serious eye damage.
   Chronic (Delayed) • Repeated or prolonged exposure to corrosive materials or fumes may cause conjunctivitis.

Ingestion
   Acute (Immediate) • May cause irreversible damage to mucous membranes. May cause damage to the kidney.
   Chronic (Delayed) • Repeated or prolonged exposure to corrosive materials or fumes may cause gastrointestinal disturbances.

Reproductive Effects • Repeated and prolonged exposure may cause reproductive effects.

TD = Toxic Dose

Section 12 - Ecological Information

12.1 Toxicity • Material data lacking.

12.2 Persistence and degradability • Material data lacking.

12.3 Bioaccumulative potential
12.4 Mobility in Soil

- Material data lacking.

12.5 Results of PBT and vPvB assessment

- No PBT and vPvB assessment has been conducted.

12.6 Other adverse effects

- No studies have been found.

### Section 13 - Disposal Considerations

#### 13.1 Waste treatment methods

**Product waste**
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

**Packaging waste**
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
