RubberGard™ EcoWhite™ Platinum **EPDM Membrane**

| Item Description | Item Number |
|------------------|-------------|
| One Roll | Various |
| | |

Description

RubberGard EcoWhite Platinum EPDM is a 0.090" (2.29 mm) non-reinforced, bi-laminate, white-on-black, cured single-ply roofing membrane that can be used in fully adhered Elevate Roofing Systems.

| Product Packaging | | | |
|--------------------|--------------|---------------|--|
| Membrane Thickness | Width | Length | Weight |
| 0.090" (2.29 mm) — | 10' (3.05 m) | 50' (15.24 m) | 0.61 lb/f+2 /2.0 kg/m²) |
| | 10' (3.05 m) | 100' (30.5 m) | - 0.61 lb/ft ² (3.0 kg/m ²) |

Product Preparation

- 1. Substrates must be clean, dry, smooth, and free of sharp edges, fins, loose or foreign materials, oil, grease, and other materials that may damage the membrane.
- 2. All roughened surfaces that can damage the membrane shall be repaired as specified to offer a smooth substrate.
- 3. All surface voids greater than 1/4" (6 mm) wide shall be properly filled with an acceptable fill material.

Method of Application

RubberGard EcoWhite Platinum EPDM Membrane must be installed in accordance with current RubberGard EcoWhite EPDM specifications, details, and workmanship requirements.

HOLCIM

Sales: (800) 428-4442 | Technical (800) 428-4511

Storage

- Store away from sources of punctures and physical damage.
- Assure that structural decking will support the loads incurred by material when stored on rooftop. The deck load limitations should be specified by the project designer.
- Store away from ignition sources as membrane will burn when exposed to open flame.

Precautions

- Take care when moving, transporting, handling, etc. to avoid sources of punctures and physical damage.
- Isolate waste products, such as petroleum products, greases, oils (mineral and vegetable) and animal fats from the RubberGard EPDM membrane.
- Refer to Safety Data Sheets (SDS) for safety information.

LEED® Information

Post-Consumer Recycled Content: 0%
Post Industrial Recycled Content: 0%

Manufacturing Location: Prescott, AR

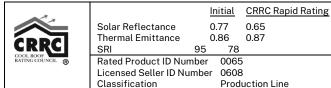

NOTE: LEED® is a registered trademark of the U.S. Green Building Council

Cool Roof Rating Council ratings are determined for a fixed set of conditions and may not be appropriate for determining seasonal energy performance. The actual effect of solar reflectance and thermal emittance on building performance may vary. Manufacturer of product stipulates that these ratings were determined in accordance with the applicable Cool Roof Rating Council procedures.

| Compliance: | Test Method | Result |
|----------------------------------|-------------|--------|
| Solar Reflectance** | ASTM E903 | 0.77 |
| Thermal Emittance** | ASTM E408 | 0.86 |
| Solar Reflectance Index (SRI)*** | ASTM E1980 | 95 |

Values were obtained from independent testing by Atlas Material Testing DSET Laboratories *SRI was calculated using the SRI calculator from the USGBC

| Typical Properties (ASTM D 4637 |) | | |
|---|---|-------------------------|--|

Firestone, the brand of premier roofing, wall, and lining systems you know and trust, will be coming to you under a new name: Elevate. During our transition, products carrying the brand name **Firestone** will change to **Elevate** on product labels and packaging, Technical Information Sheets, and elsewhere. Only the brand name is changing. Our products remain the same.

For further information on our brand transition to Elevate, scan the code below with your smartphone, or visit our website: www.holcimelevate.com
