

Technical Information Sheet

ULTRAPLY™ TPO LARGE PIPE FLASHING

Item Description	Item Number
White	W56TPO3013
Tan	W56TPO013
Gray	W56TPOG013

DESCRIPTION

Elevate UltraPly TPO Large Pipe Flashings are specifically designed for flashing of large round penetrations between 6" (150 mm) and 8" (200 mm) outside diameter. The pipe flashing fits various penetration sizes and can be cut as necessary to ensure a tight fit before installation.

METHOD OF APPLICATION

1. Penetration shall be clean of prior flashings or foreign material.
2. Cut out a circle above the level ring of the pipe flashing that is just smaller than the penetration.
3. Cut the extra material from the pipe flashing base around the indented circle.
4. Weld the flashing into place and install the clamp and sealant per current UltraPly TPO specifications.

STORAGE

Store material in its original unopened packaging away from sources of physical damage or chemical contamination.

PRECAUTIONS

- Refer to Safety Data Sheet (SDS) for TPO systems for safety information.
- Contact a Regional Technical Coordinator at 1-800-428-4511 for specific recommendations regarding chemical or waste product compatibility with Elevate UltraPly TPO Large Pipe Flashing.
