

# No Cut Control Joint

## OUT OF SAW BLADES? SAW ON THE BLINK?

Working on a small job with only one or two saw cuts?

### LEAVE YOUR SAW IN THE TRUCK AND TRY SOMETHING NEW

- ★ Perfect for smaller jobs with fewer joints that really don't warrant hauling out your saw cutting equipment.
- ★ Our 'No Cut' Control Joint eliminates the need for intermediate saw cuts and can be used on slabs up to 6" in depth.
- ★ Made of 24 gauge material and used in conjunction with our 13 gauge stakes.
- ★ Easy installation.
- ★ Perfect for use in slabs where conduit for radiant heating is to be utilized.
- ★ Excellent alternative to saw cutting AND at a price that's very competitive.
