PlyDry is specified by builders who need a perforated housewrap that meets code requirements at a very affordable price.

The product is micro-perforated, to provide the balance between breathability and bulk water holdout that’s required for most jobsite conditions. When integrated into the building envelope as part of a complete Moisture Control System, it helps eliminate moisture-related problems — including water-related structural failures, mold and mildew.

Cost Control Built In
Labor is one of the most significant costs in any building, and PlyDry helps reduce install time so you can get the house closed in fast. Because the product is semi-translucent, it’s easy to locate studs and get the product installed. It comes in a wide range of roll sizes to give builders the flexibility they need to manage waste.

Decades of Proven Performance
PlyDry is a product manufactured by the Fortifiber Building Systems Group. With more than a seventy-five year history of proven performance, technical expertise and practical know-how, the company has become a trusted partner to builders, architects and code officials.
**Product Description:** PlyDry is a tear resistant housewrap that is appropriate for a variety of exterior wall assemblies. Its semi-transparent white coloring helps locate studs and aids with quick installations.

**Composition:** PlyDry is a cross woven polypropylene fabric with a UV resistant coating and micro-perforations for breathability.

**Size & Weight:** PlyDry is available in 9’ x 195’, 3’ x 165’ and 10’ x 150’ rolls. Product weight is approximately 1.2 lbs/100 sq. ft.

**Applicable Standards:** Complies with the International Code Council Evaluation Services Acceptance Criteria for Weather Resistant Barriers (AC 38).

Complies as an alternative to the water-resistant barrier specified in Section R703.2 of the International Residential Building Code®.

Complies as an alternative to the weather-resistant sheathing papers specified in Section R703.2 of the International Residential Building Code®.

American Society for Testing & Materials (ASTM):
- ASTM D5034 - Standard Test Method for Breaking Strength and Elongation of Textile Fabrics (Grab Test)

**Physical Properties:** PlyDry is continually tested in accordance with ASTM procedures. The values shown in Table 1 are averages obtained in these tests.

**Limitations:** Product should be covered within 120 days. To ensure maximum exposure time, store unused product in an area not exposed to sunlight. Inspect product to insure it is free of any protrusions or damage which may detract from the weather-resistant barrier integrity. Holes, tears or punctures should be sealed with Moistop® Sealant and Liquid Flashing or Fortifiber® Sheathing Tape. This product is not recommended for horizontal, roofing or below grade applications. Ensure that a layer of Super Jumbo Tex® 60 minute is used to separate PlyDry and stucco or mortar used in masonry veneer walls.

**Installation:** PlyDry should be installed in accordance with the local applicable building code. Weather-resistive barriers should be applied horizontally, with the upper layers overlapping the lower layer by a minimum of 6”, and all vertical joints should be lapped a minimum of 6”. It is recommended to tape all vertical seams with Fortifiber Sheathing Tape. Consult your design professional where necessary.

**Availability:** The Fortifiber Building Systems Group’s products are distributed nationwide. For product information and pricing, please call a Fortifiber distributor near you. If you need assistance locating a participating distributor, please call our Customer Service Department at 1-800-773-4777.

**Warranty:** Fortifiber Corporation warrants that its products are in compliance with their published specifications and are free from defects in materials and workmanship for a period of two years from the date of purchase. This warranty does not apply to loss due to abuse. Material found to be defective will be replaced at no charge by Fortifiber, but in no event shall Fortifiber be liable for any other costs or damages, including any labor costs.

**THIS EXPRESS WARRANTY IS GIVEN IN LIEU OF AND EXCLUDES ALL OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Fortifiber’s sole obligations under this warranty are as set forth herein. In no event shall Fortifiber be liable for any lost revenue or profits, direct, indirect, special, incidental or consequential damages of any kind.**
