

FACTORY FABRICATED INTERSECTIONS

Fry Reglet's expertise at curving moldings combined with factory fabrication of intersections at virtually any angle, permits the complete assembly of decorative elements ready for installation. Two examples are shown below. The first uses curved and straight sections of the same drywall part and the second combines three plaster parts for an intriguing effect. Designers may let their imaginations soar. All that is required is a sketch together with the parts to be used. Fry Reglet will design the decorative element, quote a complete price and furnish a complete assembly, ready to install.

EXAMPLE 1

A SINGLE MOLDING – FACTORY FABRICATED

PART USED: DRM-50-50 DRYWALL REVEAL MOLDING

DESCRIPTION

A straight and curved assembly of reveal moldings serves as the base of this intricate fabrication combining corners and intersections at various angles with straight and curved sections of moldings.

EXAMPLE 2

VARIOUS DISSIMILAR MOLDINGS – FACTORY FABRICATED

PARTS USED: PCS-75-75 PLASTER CHANNEL SCREED

PCS-75-150 PLASTER CHANNEL SCREED

PCS-75-200 PLASTER CHANNEL SCREED

DESCRIPTION

Fry Reglet Plaster Channel Screeds with three reveal widths ($\frac{3}{4}$ ", $1\frac{1}{2}$ " and 2") are combined to produce this intricate pattern. The widest reveal frames the entire assembly while $1\frac{1}{2}$ " width is curved into an attractive design element. The center pattern is assembled from the narrowest moldings.
