The Performance Advantages Of Thermoplastic Roofing—With Special Resistance To Harsh Environments

When your application calls for a roofing system that will stand up to grease, oil, or chemicals,¹ EverGuard® PVC is your best choice. In addition, it offers many of the same performance advantages as EverGuard® TPO, including:

- Heat-welded seams for greater reliability
- Easy, 3-step installation to reduce the chance of application errors
- High reflectivity for greater energy savings
- Simple repair to reduce your ongoing maintenance costs
- The addition of KEE to replace plasticizers for better weathering characteristics

With over 20 years of experience in the field, the EverGuard® PVC formulation has been utilized successfully on thousands of buildings covering millions of square feet!
