Notes

- Express colors available in shorter lead times for 24 ga., .040", and .050" only. Standard lead times, which may be longer, apply for 22 ga., and .063".
- Protective film must be removed immediately. Please note this chart is only a representation of color options. Color matches should only be made with actual samples. Please call for actual metal sample(s).
- We receive metal through multiple vendors. If a specific metal vendor is required for a project, please specify this at the time of order.
- These color reproductions are as accurate as modern printing technology will permit and may vary slightly from actual colors supplied. Finished color chip samples are available upon request. Customer is responsible for color selections chosen from printed literature.
- Kynar 500® based fluoropolymer coating is a high-grade architectural finish offering excellent resistance to degradation caused by nature's elements and airborne contaminants. A thirty (30)-year limited warranty is available on the prefinished coil-coated steel and aluminum colors shown.
- A limited ten (10)-year limited warranty is included for post-painted Kynar®-coated aluminum applications unless otherwise stated. A twenty (20)-year limited warranty may be available upon request for certain colors. Restrictions apply; consult a sales representative for specific information.
- Standard anodized finishes that utilize a continuous coil anodizing process to provide excellent color consistency from piece to piece are available. However, shade variations may occur from coil batch to coil batch. Class I batch anodizing is also available.
- Kynar 500® is a registered trademark of Arkema, Inc. Valspar® is a registered trademark of Valspar Sourcing, Inc.
- Due to product improvements and changes, we reserve the right to change or delete information herein without prior notice.
