MATRIX™

PREMIUM ADHESIVES & CEMENTS

AsphalticRoofingSolutions

PREMIUM ADHESIVES & CEMENTS FOR ALL YOUR ASPHALTIC ROOFING PROJECTS

Today, there are many technologies available for commercial roofing, but none of them have been as time-tested for toughness and reliability as modified bitumen and built-up roofing. At GAF, we have a full line of high-quality roofing adhesives, cements, primers, and sealants designed to maximize performance of our Ruberoid®, Liberty™, and GAFGLAS® asphaltic product membranes. These products have been tested to ASTM standards and used with multiple systems to achieve UL, FM, and Miami-Dade County approvals.

Whether you are installing a Cold, Hot, or Torch-Applied asphaltic roof, be confident that the GAF products you choose will work in concert to provide a long-lasting, durable system that meets the test of time.
