

Master Flow[®] Roof Louver SSB960SC

Aluminum Slant-Back Roof Louver with Granule Coating

Description

The Master Flow[®] Roof Louver SSB960 is available in four popular granule-coated colors. The unique finishing process allows shingle granules to be adhered directly to the vent, providing a more complementary look to the roof's shingles (vs. typical metal/plastic roof vents). For roof slopes 3:12 and above.

- **Slant-Back Design...** Helps provide Excellent protection against weather infiltration, especially in steeper slope applications.
- **Tough Granulated Finish...** Resists peeling, chipping, UV degradation and granule loss.

Colors & Basic Specifications

Weathered Wood

Brown

Shakewood

Black

Construction	Opening Size	Flashing Dimensions	Height	NFA (Sq. In.)
Aluminum w/ Granule Coating	10"	16" x 20.5"	5 1/2"	60

NOTE: Always have a balanced attic ventilation system. In no case should the amount of exhaust ventilation at or near the ridge exceed the amount of intake ventilation at or near the soffit. Visit www.gaf.com/ventcalculator for details.
