

METALASTIC[®]

EXPANSION JOINT COVERS

Reduce Field Splices—And Risk Of Leaks

- **Saves Labor...** Installs in up to 1/3 the time of traditional products
- **Easy Installation Featuring Splice-Lock™ Technology...** No primers, adhesives, or VOCs to worry about!
- **Reduces Embarrassing Callbacks...** Fewer seams means less potential for leaks
- **Versatile...** Works with all types of roofing systems

Comes In Continuous Lengths Up To 250' ft.

With These Special Features:

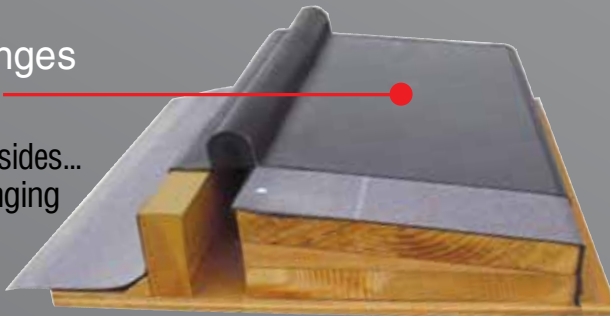

Splice-Lock™ Instant Splices

- No waiting... saves time and labor
- No primers, adhesives, or VOCs

Wide Flanges Available

- Either or both sides... without changing bellows

Protected Nailing Strips

- Self-sealed when installed
- Fewer problems from rust and decay

*Quality You Can Trust...
