

# Mechanically Attached Residential Roll Roofing

## **GAF** MineralGuard Residential Roll Roofing

### Description:

Mineral Guard Residential Roll Roofing is great for use on low-slope roofs over porches, garages, car ports, sheds, and other residential structures. Its fiberglass-reinforced construction helps the product resist moisture absorption, lie flatter, and reduce weathering. Mineral Guard Residential Roll Roofing is installed with corrosion-resistant roofing nails and asphalt plastic cement and should only be used on roofs having positive drainage and slopes of no less than 2:12. Do not use on roofs where water can collect.

### Available Colors:

Charcoal

White

### Advantages:

- **Easy to install.** Perfect for small residential projects.
- **Fiberglass-reinforced.** Helps resist moisture absorption.
- **Lies flat** for a great look
- Helps provide **temporary coverage** after storms
