<sup>1</sup>See *GAF Shingle & Accessory Limited Warranty* for complete coverage and restrictions. The word "Lifetime" refers to the length of coverage provided by the *GAF Shingle & Accessory Limited Warranty* and means as long as the original individual owner(s) of a single-family detached residence (or the second owner(s) in certain circumstances) owns the property where the shingles are installed. For owners/structures not meeting the above criteria, Lifetime coverage is not applicable.

<sup>2</sup>This wind speed coverage requires special installation; see *GAF Shingle & Accessory Limited Warranty* for details.

<sup>3</sup>StainGuard<sup>®</sup> algae protection is available only on shingles sold in packages bearing the StainGuard<sup>®</sup> logo. Products with StainGuard<sup>®</sup> algae protection are covered by a 10-year limited warranty against blue-green algae discoloration. See *GAF Shingle and Accessory Limited Warranty* for complete coverage and restrictions.

<sup>4</sup>Energy cost savings are not guaranteed and the amount of savings may vary based on climate zone, utility rates, radiative properties of roofing products, insulation levels, HVAC equipment efficiency, and other factors.

<sup>5</sup>Subject to eligibility requirements and loan approval. Terms and conditions apply. See [www.renovateamerica.com](http://www.renovateamerica.com) for more information.

NOTE: This product is not available in Canada.

# Timberline® Cool Series® Shingles May Help Reduce Cooling Costs!<sup>1</sup>

## Our most reflective shingle!

When the sun's rays blaze down on your home, your roof absorbs light and heat transfers into your house, which impacts the amount of energy you use for air conditioning.

Our Timberline® Cool Series® Shingles are highly reflective and help reduce the amount of heat transferred into your home to help your home stay cooler during the hot summer months!

Timberline® Cool Series® Shingles may also help you save on cooling costs.<sup>1</sup>

Thanks to the reflective nature of Timberline® Cool Series® Shingles, part of the heat radiating from the sun gets reflected, helping to reduce the heat in the attic and heat going into the house. It may translate into savings on air-conditioning bills.<sup>1</sup>

## Want to know a cool secret?

It used to be that only shingles with white roofing granules were considered "cool" by energy-saving standards. But thanks to our proprietary cool granules and unique formulas, Timberline® Cool Series® Shingles have greater reflectance than our traditional shingles. Our specially designed granules reflect more light to lower the roof temperature and help reduce the transfer of heat to the space below — to help keep you cooler!

### Proprietary Outer Coating

- Reflects infrared (invisible) and UV (visible) light to help keep your roof cool

## Benefits

- **Helps Reduce Cooling Costs...** Cool roofs may help you save on cooling costs<sup>1</sup>
- **Rebates...** Some utility companies may provide incentives for using cool shingles
- **Highest Roofing Fire Rating...** UL Class A, Listed to ANSI/UL 790
