

TL-0011 — Shelf Life of Roofing Underlayments Technical Letter

The shelf life of GCP underlayments (GRACE ICE & WATER SHIELD[®], GRACE ICE & WATER SHIELD[®] HT, GRACE ULTRA[™], GRACE SELECT[™], Roof Detail Membrane[™], GCP granular underlayment, TRI-FLEX[®] and TRI-FLEX[®]15) is highly dependent on storage conditions. In general, these products should be stored in their original, unopened packaging at ambient temperatures between 40–90 °F (5–32 °C) under dry conditions. GCP self-adhered underlayments have optimum initial adhesion to the roof deck if used within one year from the date of manufacture.
