# 4600™ HYBRID

## STRUCTURAL ADHESIVE SEALANT

Multi-purpose structural adhesive/sealant and most common building material. The 4600 unique hybrid technology adheres to skylight frames, metal flashings, wood, concrete/masonry, aluminum, glass, HVAC components, copings and roof substrates.

- High viscosity sealant — will not slump
- Stays flexible, exceeds rigorous ASTM C-920 class 35
- Apply wet or dry in challenging weather conditions, down to 0 °F
- One comprehensive sealant for a variety of construction applications
