STONE COLOR ENHANCER/SEALER

PRODUCT DESCRIPTION

Glaze 'N Seal Stone Color Enhancer/Sealer is a "State-of-the-Art penetrating sealer" for water, oil and stain resistance on flamed, honed, textured and tumbled marble, granite, limestone, and slate. It enhances color & seals in one easy step.

USES

- Use on all absorbent stone and tile where color enhancement and stain protection is needed.
- Indoors and outdoors including freeze/thaw areas.
- Vertical and horizontal surfaces.
- To intensify color.
- To brighten faded stone.

SPECIAL FEATURES

Stone Color Enhancer is a "state-of-the-art" premium, oil and water repellent. It forms a barrier that resists moisture, stains and mildew. This product is breathable and does not leave a surface coating. Stain Defense Color Enhancer is VOC compliant. This product may be used as a pre-sealer and as a grout sealer.

SUITABLE FOR:

- Showers
- Driveways
- Garages
- Kitchen
- Pool Areas
- Bathroom
- Stucco Finishes
- Patios
- Graffiti Protection

FEATURES

- INTENSIFIES COLOR
- BRIGHTENS FADED STONE
- UNSURPASSED WATER & OIL RESISTANCE
- NO UNPLEASANT ODOR
- RESISTS EFFLORESCENCE
- SAFE TO USE
- EASY TO APPLY
- LONG LASTING
- RESISTS MILDEW
- VOC COMPLIANT

APPLICATION

Always read product label carefully before using. **TEST FIRST!** Due to differences in materials, always test product in several small inconspicuous areas to determine suitability of product for your use. Surface must be free of all surface coatings and waxes, and must be clean and dry. Remove any wax or polish finishes with Glaze 'n Seal Stone Stripper. To remove film forming sealers use Glaze 'n Seal Paint Coating and Sealer Stripper. Let dry overnight before applying sealant.

On new installations, apply to all surfaces before grouting to assist in easy clean-up and to resist grout staining. Apply liberal amount of Stone Color Enhancer with a new clean brush, roller, or paint pad. Do not spray product. *Allow sealant to soak into surface.*

On very porous surfaces a second coat may be applied one hour later. Allow to dry overnight before grouting.

After grout has cured and tile has been thoroughly cleaned, apply an additional coat of Stone Color Enhancer over the entire surface including grout. Wipe excess sealant from surface after 5 minutes with a clean towel to avoid puddling.

Cure Time: Stone Color Enhancer cures in 24 hours. Allow surface to dry for 4 hours or overnight, before allowing traffic. Keep surface free from staining materials for 72 hours.

NOTE: Apply when temperature is between 50°F – 90°F. Avoid puddling and rundown. If sealant comes in contact with surrounding surface, wipe off. If residue appears, reapply product and buff surface with a clean towel.

Coverage rate of Stone Color Enhancer will vary widely depending on porosity and absorbency rate of surface to be sealed. Temperature and application method will also affect coverage.

One quart will seal between 50-400 square feet. In most instances, expense of labor exceeds material cost of sealing project. Do not under apply the product as the labor cost of doing the job twice exceeds the material costs.

Maintenance: Surface should be kept clean using Glaze 'n Seal Neutral Cleaner or Stone Cleaner as needed. Reapply Stone Color Enhancer as needed.

Stain Resistance Tests: Independent test for staining (CTI-T-72) has shown Stone Color Enhancer to be an extremely effective stain repellent against a variety of contaminants on a wide range of surfaces, including marble, limestone, travertine and slate.

WARRANTY

Glaze 'n Seal Products liability, either expressed or implied, is limited solely to the replacement of this product when proven to be defective and does not include any labor costs or consequential damages. It is the user's responsibility to determine the safety, toxicity and suitability of this product.

ADVANCED STONE CARE PRODUCT LINE

Stain Defense is part of Glaze 'n Seal's Advanced Stone Care line of products to protect, maintain, and restore marble, granite, limestone and other fine stone. This "state-of-the-art" product line includes sealers, polishes, cleaners and restoration products.

All products are effective, safe to use and easy to use.
