Contractor-Grade Performance

Grabber's ISO 9002 Certified Multi-Purpose Self-Adhesive Drywall Mesh Tape is ideal for use in finishing drywall and cement board. Grabber's mesh tape is designed to cover drywall joints, cracks, and holes on smooth, textured, stucco and popcorn finishes. Packaged in 300-foot rolls.

Grabber's self-adhesive fiberglass mesh tape, meets the highest standards for quality. Specially primed adhesive provides additional holding ability, especially in higher heat and humidity environments where other competing products may fail. Customer feedback has shown superior bond ratings versus our competition.
