

PLYLITE® The miracle fastener™

Plylite fasteners attach plywood to 25-20 gauge steel studs the first time, every time.

Fastening plywood to light gauge steel is difficult, if not impossible. Grabber offers an innovative product that fastens plywood to 25-20 gauge steel studs quickly, easily and securely.

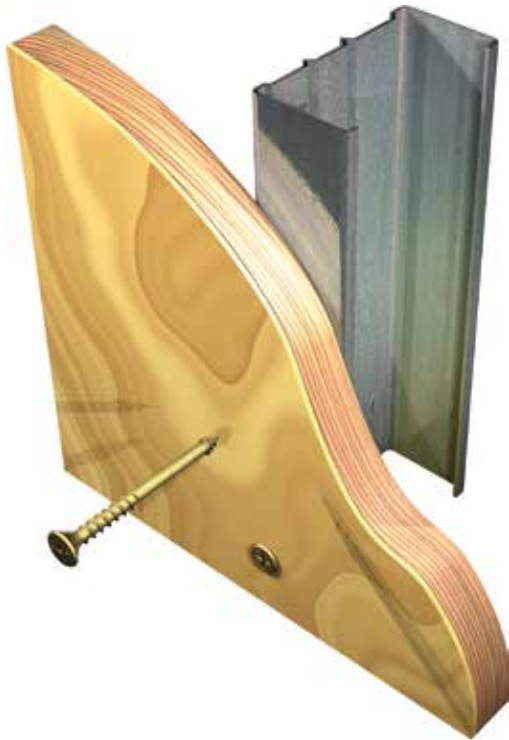

With Plylite fasteners' threaded points, smooth shanks and countersinking serrated heads, the interior contractor will find fastening plywood to steel studs as easy as applying gypsum wallboard.

Plylite fasteners are available in three sizes:

7 x 1½ for 3/8" and 1/2" plywood

7 x 2 for 5/8" and 3/4" plywood

7 x 2¾ for plywood over gypsum

Screw Specifications

Size	Head Style	AVG. WT/M	Bulk Box	Special Mini-Pack
7 x 1-1/2	Phillips Flat	4.7	7,500	500
7 x 2	Phillips Flat	6.3	5,000	500
7 x 2-1/2	Phillips Flat	8.5	3,000	250

- ▶ **Successful Plylite applications:**
- ▶ **Plywood to 25-20 gauge steel framing**
- ▶ **Plywood sheathing to 22 gauge steel deck**
- ▶ **Dense board to light gauge steel**
- ▶ **Slot wall to 25-20 gauge steel studs**
- ▶ **Abuse board to 25 gauge steel**
- ▶ **OSB & FRP to 25-20 gauge steel studs**

Plylite fasteners are coated in yellow zinc for corrosion protection.
