

Submittal Sheet #20061129

SUBMITTAL SHEET**Spark Perforated Joint Tape****Product:** Spark Perforated Joint Tape

| Product | Item# | Description |
|----------------|--------------|--|
| | JT250 | Spark Perforated Paper Tape - 20, 250' rolls |
| | JT500 | Spark Perforated Paper Tape - 10, 500' rolls |

Application

Position and apply Gypsum Panels in accordance with manufacturer's recommendations. Joint preparation; follow printed instructions on the joint compound container for use of compound. Designed to work with Bazooka and Banjo-style taping machines; automatic taping systems and for hand taping.

Description

High tensile strength resists tearing and distortion. This tape is designed to use with all quality joint compounds to connect drywall sections and reinforce corners prior to a broad range of wall treatments.

Finishing

Finishing the drywall gets the drywall ready to be primed and painted. In order to paint a beautiful coat over your drywall, you'll want to prime it first. Make sure all surfaces are thoroughly dry, dust-free and flat before finishing. Skim coating fills imperfections in joint work and provides a uniform surface for priming and painting. Skim coat if needed. Apply a prime coat or quality interior latex flat wall paint to drywall surface. Allow to dry before painting, texturing or wallpapering.
