

CCW PRE-PAVE 711-70 MEMBRANE MATERIAL CERTIFICATION

This is to certify that Carlisle Coatings & Waterproofing PRE-PAVE 711-70 sheet membrane and flashing, a self-adhering rubberized asphalt membrane laminated to a high-strength, heat-resistant woven polypropylene mesh. A siliconized release liner prevents the material from sticking in the roll and is easily removed for installation. The CCW 550, CCW 702, CCW 702-LV, CCW-201, CCW LM-800-XL, and CCW 704 Mastic are part of the CCW PRE-PAVE 711-70 System and are recommended by Carlisle Coatings & Waterproofing. CCW PRE-PAVE 711-70 is manufactured in the USA.

CCW manufactures CCW PRE-PAVE 711-70 to comply with the following published ASTM typical property values and meets the specification requirements:

CCW PRE-PAVE 711-70 - Property	Test Method	Unit	Typical Value
Thickness		mils	70
Tensile	ASTM D 882	lbs/in	53
Elongation*	ASTM D 882	%	350
Permeability	ASTM E 96(B)	perms	0.05
Pliability	ASM D 146 180° bend	Pass/Fail	Passes @-25°F .063" mandrel
Puncture	ASTM E 154	lbs	200
*% of elongation to ultimate failure of rubberized asphalt membrane
