 - No mixing or special tools required
 - All weather-hot or cold, wet or dry
- HE304 - 11 lbs.

3-STEPS TO A BEAUTIFUL DRIVEWAY

1. CLEAN IT

- Sweep off dust, dirt and loose stones
- Cut back grass or weeds on edges and from cracks
- Scrub oil and grease spots with detergent and a stiff brush
- Hose area and sweep away puddles

2. REPAIR IT

- Repair small cracks up to 1/2" wide with Crack Repair or Filler — fill to surface level
- Repair larger cracks over 1/2" wide and potholes with Pothole Patch
- Remove loose debris and fill just above surface using a trowel
- Compact mix by tamping on it

3. SEAL IT

- Choose the right driveway sealer for your driveway condition
- Use a quality brush applicator, applying in a consistent pattern for a professional finish

See product labels for complete instructions.
