## Description

**RN109 - RAM-NEK FR** is used to seal joints in utility vaults, above and below-ground fuel containment structures, airport projects, concrete pipe and manholes, septic tanks, grease pits and other high risk applications where fuel and oil might be present.

## Features:

- Provides a permanently flexible watertight seal in environments where hydrocarbons such as gasoline, jet fuel, and/ or oil are
  present.
- Sealed joints will not shrink, harden, or oxidize upon aging.
- Material does not require a designed control joint to function.
- Excellent chemical and mechanical adhesion to dry, clean surfaces.

## **Chemical Resistance Table**

Immersion Testing **RN109 - RAM-NEK FR** will have the following typical results when exposed to the following medias when submerged:

Solution Concentration 100% 100% 100% 100% 100% 100% 100% 100% 100% 100% 100% 100% 100% 100% 100% 100% 100% 100%	<b>Results</b> No Degradation No Degradation No Degradation No Degradation No Degradation No Degradation Very Slight Swell No Degradation Excess Swelling 25% Swell Excess Softening No Degradation No Degradation No Degradation
