

# ROOF GARDEN

## Vegetated Sedum Mats

### Description

CCW's Vegetated Sedum Mats are a quick and cost-effective method of obtaining instant vegetative coverage on your building's Green Roof. CCW's Vegetated Sedum Mats ensure a no-hassle installation and immediate vegetative coverage.

### Features and Benefits

- Instantaneous vegetative coverage
- No waiting for plants to "grow in"
- Greatly reduced plant maintenance
- Easy installation

### Installation

The rolls of CCW's Vegetated Sedum Mats are hoisted to the rooftop and unrolled over a minimum 2.5" of CCW's pre-moistened Growth Media. The rolls are placed adjacent to each other with no overlap. The Green Roof is then irrigated until fully saturated.

### Size and Coverage Rate

- 25 square feet per mat
- 48"-wide by 75"-long
- 5.5 lbs/sq. ft. fully saturated
- Approximately 100 lbs. Per roll, as delivered
- Minimum 85% vegetative coverage

### Plants

CCW's Vegetated Sedum Mats come pre-vegetated with many different varieties of sedums. Some of the most commonly found varieties include:

- Sedum Kamtschaticum
- Sedum Spurium "John Creech"
- Sedum Spurium "Tricolor"
- Sedum Spurium "Red Carpet"
- Sedum Spurium "Fuldaglut"
- Sedum Acre "Gold Moss"
- Sedum Sexangular
- Sedum Album "Coral Carpet"
- Sedum Reflexum "Blue Spruce"
