

ROOF GARDEN

Green Roof Products: Sedum Tile

The sedum tile has a mix of sedums that is widely adapted across most of the country. Plants are selected for durability, beauty, and ease of maintenance.

Sedum tiles are available year round, in large lots, for quick shipping. Tiles are acclimated to outdoor conditions before delivery, assuring good performance on the roof top.

ROOF GARDEN

A coconut fiber mat is at the bottom of the soil profile, holding the plants together, and allowing easy handling. Tiles are simply laid down on bare soil.

Pallet-shippers allow economical truck delivery, boxes are available for smaller shipments..
