To Whom It May Concern:

Re: The Hilti CFS-CC Cable Collar – LEED Info.

The Hilti CFS-CC is assembled in Minneapolis, Minnesota from foreign and domestic parts.

The red foam intumescent material in the Hilti CFS-CC has a VOC content of 4.9 grams per liter.

The post-consumer recycled content of all steel parts is 25%. The pre-consumer recycled content of all steel parts is not known. The post-consumer and pre-consumer recycled content of all other components of the Hilti CFS-CC is not known. The metal parts of the Hilti CFS-CC are recyclable. The Hilti CFS-CC does not contain any Rapidly Renewable Materials.

The Hilti CFS-CC is not regulated as a hazardous waste by the Federal EPA Standards. The regulations for the disposal of non-regulated industrial waste can vary from state to state and even city to city. For this reason, you should consult your local and state regulatory agencies for direction on disposal.

Please feel free to contact me at (918) 872-3704 if you have questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Jerry Metcalf".
