RE: Powder Actuated Nails Update – X-P Nail Phase Out and Expanded X-U Nail Sizes

To Whom It May Concern:

As part of Hilti's ongoing efforts to improve and simplify our Direct Fastening portfolio, the powder actuated X-P nail portfolio is being phased out as we introduce an expanded range of X-U nails. This update does not affect BX and GX X-P nails used with battery and gas actuated fastening tools.

The existing and new X-U nails are covered by the evaluation report from ICC-ES, ESR-2269, in addition to supplemental evaluation and compliance with the Los Angeles Building Code (LABC), the Los Angeles Residential Code (LARC), the Florida Building Code – Building, and the Florida Building Code – Residential.

X-P Nails in Phase Out		Alternative X-U Nails	
Description	Item #	Description	Item #
X-P 22 P8	2150366	X-U 22 P8	2141085
X-P 27 P8	2150367	X-U 27 P8	2141086
X-P 34 P8	2150368	X-U 34* P8	2429822
X-P 40 P8	2150369	X-U 40* P8	2429834
X-P 22 MX	2150380	X-U 22 MX	237346
X-P 27 MX	2150381	X-U 27 MX	237347
X-P 34 MX	2150382	X-U 34* MX	2429981
X-P 40 MX	2150383	X-U 40* MX	2429835

*New X-U nail length.
