

DRAWINGS FOR ILLUSTRATIVE PURPOSES ONLY

343 Louvered Weep Hole Features:

- Injection-molded flexible PVC
- Configuration of louvers directs passage of water from cavity to outside of building, while preventing reverse passage of water.
- Design permits air passage into cavity, thus aiding pressure equalization and reducing suction which can cause water penetration.
- Rectangular closure strip prevents mortar droppings from clogging openings.
- Compressible flanges can accommodate joint widths of $\frac{3}{8}$ " to $\frac{3}{4}$ ".
- Color: 343 available in gray only

Size:

- Standard: 2 $\frac{1}{4}$ "
- Medium: 2 $\frac{7}{8}$ "
- Jumbo: 3 $\frac{1}{2}$ "

IMPORTANT: Since each construction project is unique, the appropriate selection and use of any product contained herein must be determined by competent architects, engineers and other appropriate professionals who are familiar with the specific requirements of the project in question.
