

COPPER GUARD™

Rolled and Sheet Copper Flashing

DRAWINGS FOR ILLUSTRATIVE PURPOSES ONLY

COPPER GUARD™ is a permanent premium quality rolled or sheet copper flashing for any trim work required. Excellent for forming valleys, drip edges, fascia trim and more.

- 100% compatible with ACQ and CBA treated wood
- Flexible and easily formed by hand
- Prevents corrosion
- Aesthetically superior
- Permanently waterproof
- High tensile strength resists stretching
- Tough enough to bear the compressive forces in the masonry wall

Applications

- Horizontal Masonry Surfaces
- Vertical Masonry Surfaces
- Foundation Sill Flashing
- Cavity Wall Flashing
- Spandrel Flashing
- Parapets of Copings
- Head and Sill Flashing

• Please refer to H&B installation instructions for more information.
