

HOHMANN & BARNARD

# RESIDENTIAL PRODUCTS

SUPERIOR  
PERFORMANCE & FEATURES

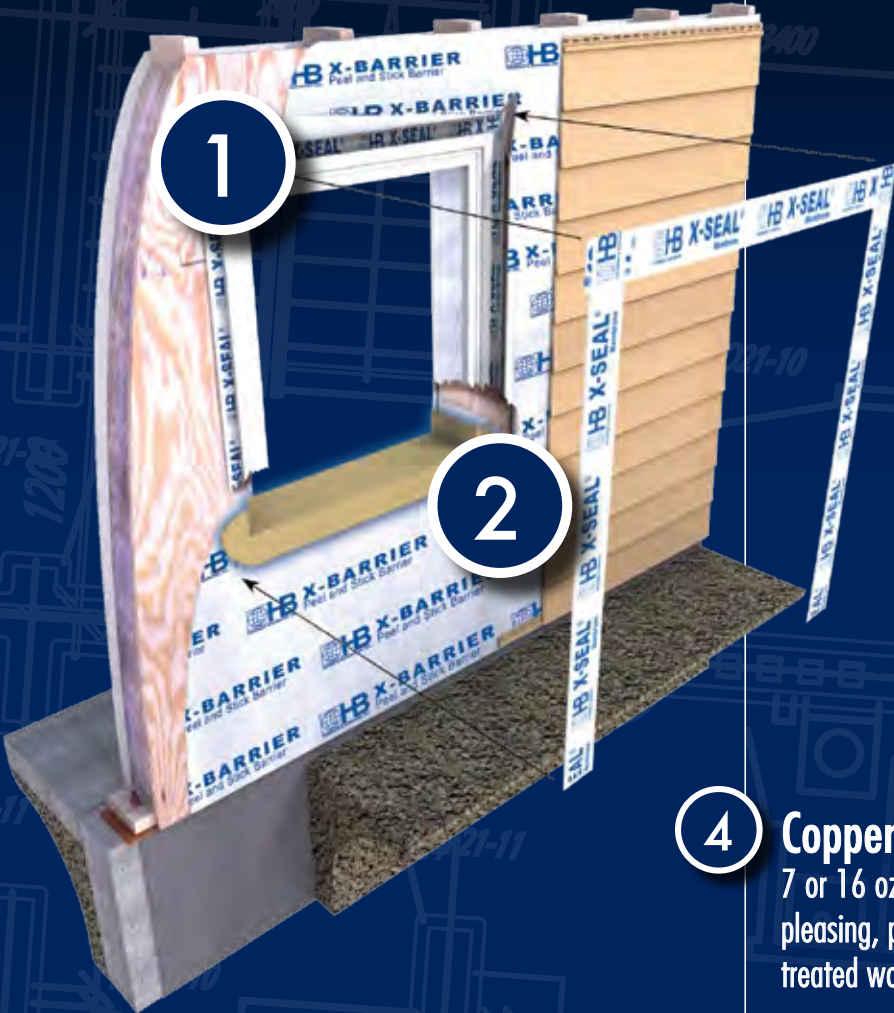

WE MAKE THE PRODUCTS  
THAT MAKE YOUR  
RESIDENTIAL BUILDING  
SYSTEMS WORK.

Homes require performance and protection within a wide range of environmental conditions - rainwater penetration, wind-driven water, moisture ingress and moisture build-up, drainage, vapor flow, condensation and capillary transfer - that are the enemies of structural and climatic integrity.

Hohmann & Barnard's Residential Products combine to create a superior and reliable line of defense against damage caused by moisture.

**X-SEAL® Tape**

Self-adhering, self-healing detail tape for windows, doors, and other openings.

**Stretch-X-Seal™**

Flexible, "stretchable," and tear resistant detail tape, excellent for window pan openings and bottom corners of window sills.

**Flash-Guard™ NA & Flash-Guard™ SA**

Non-asphaltic membrane with 3 oz. copper sheet laminated to a tough polyethylene film. For pressure treated decks, foundations, doors, and windows. Available self-adhering (SA).

**Mighty-Flash™ NA & Mighty-Flash™ SA**

Non-asphaltic stainless-steel laminated membrane. A high quality and easy to install product for all flashing needs. Available self-adhering (SA).

**Copper-Guard**

7 or 16 oz. plain rolled and sheet copper. Aesthetically pleasing, prevents corrosion and compatible with treated wood. Can be used to form valleys on site.

**Granular IceGuard™**

Self-adhering composite roofing underlayment. Provides excellent traction and UV protection.

**MetalGuard™**

Self-adhering underlayment for metal roofing.

**Textroflash™**

Non-asphaltic 40-mil composite membrane composed of a polyethylene sheet and proprietary clear adhesive. Designed for use as surface-mounted flashing.

**Nuflex™ PVC**

Low cost, concealed water-proofing membrane for foundation walls and under concrete slabs.
