## MANUFACTURER

Homasote Company  
932 Lower Ferry Road  
West Trenton, New Jersey 08628  
800-257-9491, Ext: 1332  
[sales@homasote.com](mailto:sales@homasote.com)

## DESCRIPTION

Homex 300 is a cellulose based non-asphaltic expansion joint material that is made from the Homasote 440 substrate. It is made from 98% recycled paper fibers, 2% paraffin wax, and less than 0.1% copper metaborate. The substrate is free of asbestos, formaldehyde, urea and phenolic additives.

Homex 300 is manufactured in 1/2" thickness and 5' and 10' lengths, with widths from 3" to 7-1/2". Custom sizes are available upon request in truckload quantities.

## USES

Homex 300 is used as an expansion joint as well as in concrete forming and screeding.

## LIMITATIONS

Homex 300 must be installed in accordance with pertinent manufacturer's published installation instructions.
