

ROOFGARD-COOL GREY™

Synthetic Roof Underlayment

IKO's RoofGard-Cool Grey rolls are lighter and easier to handle than felt rolls, making it faster to install. The synthetic, non-breathable material is easy to install around vents, dormers, and other roof structures too. UV stabilizers allow for up to three months exposure before shingle installation. And since it's grey instead of black, it absorbs less of the sun's radiant heat. Lay lines printed every 1" (2.5 cm) aid in shingle course alignment.

RoofGard-Cool Grey is a synthetic underlayment for steep slope roofing.

1

Features and Benefits

- ✓ Stronger And Lighter Than Felt
- ✓ Superior Flexibility
- ✓ Non-Breathable

2

General Information

Area/Roll	1000 ft. ² (92.9 m ²)
Rolls/Pallet	48
Pallet Size	40 x 48 in. (102 x 122 cm)
Product Stock No.	0520021

3

Product Dimensions

Length	250 ft. (76.2 m)
Width	48 in. (1,219 mm)
Lap Line	4 in. (102 mm)

Product dimensions shown are subject to normal manufacturing tolerances of - 0.5 to + 1 ft. (- 0.15 to + 0.30 m) on the sheet's length and +/- 1/4 in. (6.4 mm) on width.

ROOFGARD-COOL GREY™

4 Applicable Standards¹

ASTM D8257 Product Standard

NOTE: IKO RoofGard-Cool Grey underlayment meets or exceeds the requirements in the product standards referenced at the time of manufacture.

5 Safety Information

CAUTION: Working at heights on sloped-roof surfaces can be dangerous. Do not install until all appropriate safety precautions are followed. Always wear appropriate personal protective equipment (PPE), including appropriate fall protection equipment.

6 Underlayment Installation

Roofgard-Cool Grey must be installed according to all of IKO's application instructions. Some select installation requirements are highlighted here:

1. The space beneath the roof deck (i.e., attic) should be thoroughly ventilated to minimum local building code requirements.
2. Ensure a minimum of 4-inch side laps and 6-inch end laps.
3. Attach RoofGard-Cool Grey to the roof with roofing nails or staples having one inch diameter plastic/metal caps.
4. In high wind zones or coastal areas, fastening spacing may need to be increased. Consult local building codes.
