

WARRANTY INSPECTION ZONE CHART

To determine the Inland Inspection Zone Charges, take the first three digits of the ZIP Code to determine which zone the building to be inspected is located. Match the zone number on the chart below to determine the appropriate inspection charge. The published inspection charges are the cost per inspection. Typically two inspections (Startup and final) are required.

NOTE: Canadian locations within 100 miles of the United States border are in zone 5. For all other locations outside of the 48 contiguous states, an inspection estimate must be requested from the Inland Warranty Department. Inspection charges are in U.S. dollars.

<u>ZONE NUMBER</u>	<u>INSPECTION CHARGE</u>
1	\$ 350
2	500
3	700
4	900
5	1,100
