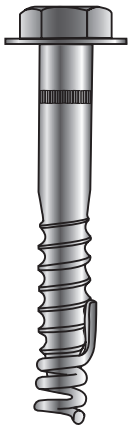
Boa™ Coil Expansion Anchor



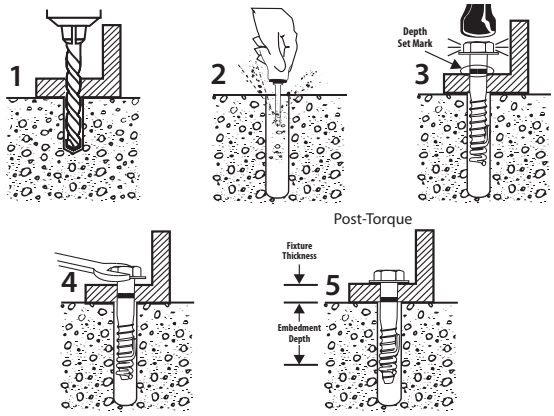
SPECIFIED FOR ANCHORAGE INTO CONCRETE

The Boa™ Coil is a high performance expansion anchor providing through fixture fastening and easy removal to keep the job moving. It's reusable with the coil replacement anchors making this anchor a low cost solution.

Ideal combination of value, performance and reusability make the Boa Coil the choice for Forming and tilt-wall contractors

Standard replacement coils for 1/2", 5/8", and 3/4" diameter bolts
Replacement coil available for easy re-use with Red Head Boa Coil Anchors only.

INSTALLATION STEPS



NOTE: To achieve maximum loads the installation process needs to be carried out as follows:

1. Using the fixture as a template, drill the correct diameter and depth hole.
2. Remove debris with vacuum or hand pump.
3. Insert the assembled Boa Coil anchor. (The coil anchor tab points up the anchor.) Tap anchor down to depth set mark and stop.
4. Tighten until washer is firmly held to the fixture and stop. Number of turns to set anchor: 1/2" 3-4 turns, 5/8" and 3/4" 4-5 turns. Ensure washer is tight and snug fit.
5. The Boa Coil anchor is ready to take load. (The bolt can be removed leaving the coil in the hole.)

The Boa coil anchor can be <u>reused up to 3 times</u> in new holes.
