

## Standard EPDM Accessories

Use	SKU	Product	Description	Size	Colors	Packaging
Cleansers and Primers	70000080 70000081	JM EPDM Tape Primer	Solvent-based primer designed to prepare EPDM surfaces for peel and stick tape products or lap cement.	2.5 gal (9.46 l) pails or (6) 1 gal (3.8 l) cans/box	Black	2.5 gal (9.46 l) pails or (6) 1 gal (3.8 l) cans/box
	70000758	JM EPDM Tape Primer (Low VOC)	Organic solvent mixture designed to thoroughly clean the release agent and dirt from JM EPDM membrane prior to applying primers or splice adhesive.	(6) 1 gal (3.78 l) cans/box	Black	(6) 1 gal (3.8 l) cans/box
	70000082	Splice Cleaner	Low VOC solvent mixture designed to thoroughly clean the release agent and dirt from JM EPDM membrane prior to applying primers or splice adhesive.	5 gal (18.92 l) can	Clear/Colorless	(1) 5 gal (18.92 l) can
Membrane and Flashing Accessories	70000089 70000090	Flashing	60 mil uncured EPDM sheet flashing for use in flashing and joints at corners and projections.	18" x 100' (45.72 cm x 30.48 m) 24" x 100' (60.96 cm x 30.48 m)	Black	1 roll/box 1 roll/box
	70000100	Protective Stone Mat	Nominal 6.0 oz/yd <sup>2</sup> (140 g/m <sup>2</sup> ) UV-resistant polypropylene, needle-punched fabric used as a slipsheet between membrane and ballast or pavers.	15' x 300' (4.57 m x 91.44 m)	Black	1 roll
Peel & Stick Membrane and Flashing Accessories	70001631 70001632	Seam Tape Plus	Self-adhering, cured EPDM rubber seam tape with a clear polyethylene release line for splicing EPDM sheets.			
	70000546 70007625 70000545	Flashing	Uncured EPDM sheet with a factory laminated, self-adhering EPDM/butyl tape for corners and projections.	6" x 100' (15.24 cm x 30.48 m) 9" x 50' (22.86 cm x 15.24 m) 12" x 50' (30.48 cm x 18.29 m)	Black	6" - 2 rolls/box 9" - 1 rolls/box 12" - 1 roll/box
	70000094 70000095 70000096	Sealing Strip	Cured EPDM strip with factory laminated, self-adhering seam tape to strip in flashing details or field seams.	6" x 100' (15.24 cm x 30.48 m) 9" x 100' (22.86 cm x 30.48 m) 12" x 100' (30.48 cm x 30.48 m)	Black	2 rolls/box 1 roll/box 1 roll/box
	70000102	RTS with Tape	Polyester scrim reinforced, cured EPDM strip with a factory-laminated, 3" (80 mm) self-adhering seam tape for securing membranes at perimeters and penetrations.	6" x 100' (15.24 cm x 30.48 m)	Black	2 rolls/box
	70000099	T-Joint Patches	Uncured EPDM sheets with a factory laminated, self-adhering EPDM/Butyl tape for use where seam laps intersect perimeter or header sheets.	6" (15.24 cm) round	Black	100 patches/box
	70000085	Inside/Outside Corners	Uncured flashing with a pre-applied peel and stick tape.	7" x 9" (1.75 cm x 2.25 cm)	Black	20 corners/box
	70000084	Pipe Boots	Cone-shaped, stepped pipe boot with a pressure sensitive seam tape around the bottom. For use in flashing round roof penetrations.	1" - 6" (25 mm - 15.24 cm)	Black	10 boots/box
	70000093	Pourable Sealer Pockets	One-piece, prefabricated units with a factory-laminated, pressure sensitive seam tape for use in sealing uneven penetrations.	6" (15.24 cm) diameter 2 1/2" (6.4 cm) base flange	Black	12 pockets/box
	70000104	Walkpads	Heavy duty, solid rubber pads with a 3" (7.62 cm) pre-applied tape designed to protect roofs from damaging foot traffic.	3/8" h x 30" w x 30" l	Black	50 pads/pallet

## JM EPDM Selector Guide (continued)

Use	SKU	Product	Description	Size	Colors	Packaging
Adhesives and Sealants	70000076	JM EPDM Membrane Adhesive (Solvent Based)	One-part, neoprene rubber-based, solvent-based contact adhesive for adhering membrane to porous surfaces such as roof insulation wood or concrete.	5 gal (18.92 l) can	Yellow	(45) 5 gal (18.92 l) cans/pallet
	70001620	JM EPDM Membrane Adhesive (Water Based)	A contact polymeric water-based bonding adhesive.	5 gal (18.92 l) can	Liquid - Milky White Dried Film - Nearly Transparent	(45) 5 gal (18.92 l) cans/pallet
	70000626	JM EPDM Membrane Adhesive (Low VOC)	Synthetic rubber adhesive for adhering membrane to porous substrates such as a roof insulation, wood or concrete.	5 gal (18.92 l) can	Amber	(45) 5 gal (18.92 l) cans/pallet
	70000078	Lap Cement	One-part, butyl rubber-based, solvent-based contact cement designed to splice adjoining sections of cured or uncured EPDM membrane.	(6) 1 gal (3.8 l) can	Black	(6) 1 gal (3.8 l) can/box
	70000073	Lap Caulk	Heavy bodied, aliphatic, solvent-based, rubber sealant used to seal exposed edges of membrane cement splices. May be used as a temporary nighttime seal.	10.3 oz (305 ml) cartridges	Black	10 cartridges/box
	70000071	Pourable Sealer	Two-part, polyurethane sealant used to seal around hard-to-flash membrane penetrations such as pipe clusters and other closely situated penetrations.	Part A: 1 gal (3.8 l) can Part B: 1 pint (0.5 l) container	Black	3 kits/box
	70000289	JM Single Ply Sealing Mastic	One-part, gun grade butyl sealant used to seal JM Single Ply membranes and flashings to roof drains and other compression seal applications.	11 oz (325.31 ml) tube	Grey	10 tubes/box
Specialty Roofing Products	90000174 90000176 90000177 90000178 90000179 90000180 90000181	Expand-0-Flash EJ/WC	Curb-to-curb or curb-to-wall expansion joint consisting of foam-supported bellows with attachment nailing flanges. Designed to manage multidirectional movement of the roofing systems.	4' - 12' (10.16 cm - 30.48 cm) Bellows 10', 50' or 100' (3.05 m, 15.24 m or 30.48 m) rolls	White or Black	10', 50' or 100' (3.05 m, 15.24 m or 30.48 m) rolls
	90000643	Metal/Membrane Flashing	Nominal 6" (15.24 cm) strip of JM EPDM membrane secured (using a patented method) to a nominal 4" (10.16 cm) wide nailing flange, Type 100G-6, galvanized steel.	Membrane - 6" (15.24 cm) w Nailing Flange - 2" - 4" (5.08 cm - 10.16 cm)	Black	100 lin ft (30.48 lin m)/carton
