

## SBS Modified Bitumen Roof Finder Index

# 3 C I D

<b>Number of Plies</b>	<b>Type of SBS</b>	<b>Substrate</b>	<b>Surfacing</b>
	<b>Cap Sheet</b>	I = Insulated	D = SBS Cap Sheet
	C = Composite	N = Nailable	(Granule Surface)
	F = Fiber	L = Lightweight	G = Gravel
	Glass		P = Protected
	P = Polyester

Specifications for Two-Part Cold Adhesive Applied SBS Modified Bitumens – Adhesive substitutes for asphalt used in above specs.					
Squeegee Method – Use specification designations above with the suffix "-C2".				<u>(Spec ID) – C2</u>	
Spray Method – Use specification designations above with the suffix "-C2".				<u>(Spec ID) – C2</u>	
Specifications for One-Part Cold Adhesive Applied SBS Modified Bitumens – Adhesive substitutes for asphalt used in above specs.					
Squeegee Method – Use specification designations above with the suffix "-C1".				<u>(Spec ID) – C1</u>	

\* See specification for any additional limitations.
