Revision date 5/23/2024

Revision: 3.0

Supersedes version of 2/22/2017

# SAFETY DATA SHEET

# **Blowing Fiberglass**

According to Appendix D, OSHA Hazard Communication Standard 29 CFR §1910.1200

SECTION 1: Identification

**Product identifier** 

Product name Blowing Fiberglass
Product number KI\_DP\_109
Other means of identification None.

Trade name Jet Stream Ultra, EcoFill Wx, EXPERT Blowing Insulation, Manufactured Housing Blowing

Insulation, Jet Stream® MAX, AtticGuard, Guardian, Guardian by Knauf Insulation, Supafil Frame US

Recommended use of the chemical and restrictions on use

**Identified Uses** Thermal and/or acoustic insulation for use in:

technical applications, industrial applications and in building construction.

Uses advised against None known.

Details of the supplier of the safety data sheet

**Supplier** Knauf Insulation Inc.

One Knauf Drive Shelbyville IN 46176-1496 Tel: 800 825 4434

www.knaufnorthamerica.com sds@knaufinsulation.com

**Region** United States, Central & South America

**Emergency telephone number** 

**Emergency phone number** 24hrs: Chemtrec Tel: 800 424 9300

#### SECTION 2: Hazards identification

#### Classification of the substance or mixture

**OSHA Regulatory Status** This product is regulated as a nuisance dust under OSHA criteria.

Not classified **Physical hazards Health hazards** Not classified **Environmental hazards** Not classified

**Label elements** 

**Hazard statements** Not classified

**Contains** None. **Hazard pictograms** None. Signal word None. **Precautionary statements** None. Supplemental label information None.

#### The following sentences and pictograms apply to this product:

http://www.knaufinsulation.com/comfort-and-handling

**Other hazards** 

**Physical hazards** None.

**Health hazards** Mechanical irritation of the skin, eyes and upper respiratory system.

**Environmental hazards** None.

Most important symptoms/effects Contact with skin, eyes and upper respiratory system may cause mechanical irritation.

Biosoluble Fiberglass is classified as a nuisance dust by OSHA.

**Persistent Bioaccumulative Toxic** Not relevant

### SECTION 3: Composition/information on ingredients

98 - 99°
- -
Not classified
(1) 650-016-00-2 - Man made vitreous (silicate) fibres with random orientation with alkaline oxide and alkali earth oxide (Na₂O+K₂O+CaO+MgO+BaO) content greater than 18% by weight meeting the requirements of Note Q of regulation n° 1272/2008 and therefore not classified as carcinogenic.
(2) All Knauf Insulation products covered by this SDS are independently certified by EUCEB to be manufactured using biosoluble glass formulations and thus exempt from labeling under NTP or California Prop 65 requirements.

CAS number

Classification Not classified

Full text of R-phrases: see section 16

Specific chemical identity and/or exact percent concentration is withheld as trade secret.

#### **SECTION 4: First aid measures**

**Description of first aid measures** 

**General information** Show this Safety Data Sheet to the medical professional in attendance. If symptoms occur,

follow first aid measures as appropriate.

**Note to physician :** No specific measures.

**Inhalation** Remove from exposure. Rinse the throat and clear dust from airways.

**Ingestion** Most important symptoms/effects

Skin contact If mechanical irritation occurs, remove contaminated clothing and wash skin gently with cold

water and soap.

**Eye contact** Rinse abundantly with water for at least 15 minutes.

Most important symptoms and effects, both acute and delayed

**General information** Mechanical irritation of the skin, eyes and upper respiratory system.

Biosoluble Fiberglass is classified as a nuisance dust by OSHA.

Indication of any immediate medical attention and special treatment needed

**General information** If any adverse reaction or discomfort continues from any of the above exposures, seek

professional medical advice.

**Specific treatments** No specific measures.

#### SECTION 5: Fire-fighting measures

**Extinguishing media** 

**Suitable extinguishing media** Water, foam, carbon dioxide (CO2), and dry powder.

Unsuitable extinguishing media None.

Special hazards arising from the substance or mixture

**General information** Products do not pose a fire hazard in use; however, some packaging materials or facings may

be combustible. Products of combustion from product and packaging – carbon dioxide, carbon monoxide and some trace gases such as ammonia, nitrogen oxides and volatile organic

substances.

**Advice for firefighters** 

**General information** In large fires in poorly ventilated areas involving packaging materials respiratory protection /

breathing apparatus may be required.

# SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

**Personal precautions** Minimise direct contact with skin in order to prevent mechanical itching. In dusty

environments, use suitable respiratory protection such as 3M 8210, N95 or equivalent. Use glasses or goggles when working with fiberglass insulation above shoulder height or in dusty environments. Where possible, use natural ventilation during installation in order to

minimise dust levels.

After contact with the product, rinse skin in cold water to reduce potential effects of mechanical itching. Dispose of surplus product in accordance with local regulations.

Use personal protection recommended in Section 8 of the SDS.

**Environmental precautions** 

**Environmental precautions** Not relevant

#### Methods and material for containment and cleaning up

**Methods for cleaning up** Vacuum cleaner or dampen down with water spray prior to brushing up. **Reference to other sections** For personal protection, see section 8. For waste disposal, see section 13.

#### **SECTION 7: Handling and storage**

#### **Precautions for safe handling**

**Usage precautions** 

Assure proper respiratory protection if potential dust exposure exceeds occupational

exposure limits.

#### Conditions for safe storage, including any incompatibilities

Storage precautions

To ensure optimum product performance; when packaging is removed or opened; products should be stored inside or covered to protect them from ingress of rain water or snow. Storage arrangements should ensure stability of stacked products and use on a first in first out basis (FIFO) is recommended.

Specific end use(s)

Specific end use(s)

Thermal and/or acoustic insulation for use in :technical applications, industrial applications

and in building construction.

#### SECTION 8: Exposure controls/personal protection

### **Control parameters**

#### Occupational exposure limits Biosoluble Fiberglass

Long-term exposure limit (8-hour TWA): ACGIH, (Notes: (A3)) 1 f/cc Glass wool fibers

Long-term exposure limit (8-hour TWA): NIOSH 5 mg/m³ Mineral wool fiber, total particulate

Long-term exposure limit (8-hour TWA): OSHA 5 mg/m³ Particulates not otherwise regulated (PNOR), respirable fraction

Long-term exposure limit (8-hour TWA): OSHA 15 mg/m³ Particulates not otherwise regulated (PNOR), total dust

ACGIH = American Conference of Governmental Industrial Hygienists.

OSHA = Occupational Safety and Health Administration.

NIOSH = The National Institute for Occupational Safety and Health.

Exposure limit values have been established by many authorities. Check on limit values that apply in your local situation

determined by the membrane filter method at 400-450X magnification (4-mm objective)

phase contrast illumination.

Biosoluble Fiberglass - see section(s): 3.

#### Exposure controls/personal protection

Appropriate engineering controls

Maintain sufficient mechanical or natural ventilation to assure fiber concentrations remain below PEL/TLV. Use local exhaust if necessary. Power equipment should be equipped with properly designed dust collection devices.

**Eye/face protection**Use glasses or goggles when working with fiberglass insulation above shoulder height or in

dusty environments.

Other skin and body protection Minimize direct contact with skin in order to prevent mechanical itching.

**Hygiene measures** After contact with the product, rinse skin in cold water to reduce potential effects of

mechanical itching.

**Respiratory protection** In dusty environments, use suitable respiratory protection.

Environmental exposure controls Not relevant

#### SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Appearance Loose fibre.

**Color** White / Grey / Blue

**Odor** Not relevant

Odor threshold No data available

**pH** Not relevant

Melting point Not relevant

Initial boiling point and range Not relevant

Flash point Not relevant

**Evaporation rate** Not relevant

Flammability (solid, gas) Not relevant

Upper/lower flammability or

explosive limits Vapor pressure Not relevant

Vapor pressure Not relevant
Vapour density Not relevant

Relative density ≈ 161.4 kg/m<sup>3</sup>

Relative density  $\approx 161.4 \text{ kg/m}^3$ Solubility Generally chemically inert and slightly soluble in water.

Auto-ignition temperature Not relevant

**Decomposition temperature** Not relevant

Viscosity Not relevant

**Explosive properties** Not relevant

Oxidizing properties Not relevant

Other information

Devitrification temperature $1832^{\circ}F$ Softening temperature $1112^{\circ}F$ Nominal diameter of fibres $2-5 \, \mu m$ 

Length weight geometric mean diameter less 2 standard errors

< 6 um

Orientation of fibres Random

SECTION 10: Stability and reactivity

Reactivity None.

**Chemical stability** Binder will decompose above 200°C (400°F).

**Possibility of hazardous reactions** Stable in normal conditions of use.

Conditions to avoid None.

Incompatible materials Hydrofluoric acid will react with and dissolve glass.

Hazardous decomposition products

None under normal use

SECTION 11: Toxicological information

Information on toxicological effects

Acute toxicity (oral) - LD50 oral No data were identified for the product as a whole. Data are for constituents:

Biosoluble fiberglass - Not applicable.

Anti-dust, antistatic and hydrophobic. - Not applicable.

Possible colorant. - Not applicable.

Acute toxicity (dermal) - LD50

dermal

No data were identified for the product as a whole. Data are for constituents:

Biosoluble fiberglass - Not applicable.

Anti-dust, antistatic and hydrophobic. - Not applicable.

Possible colorant. - Not applicable.

Acute toxicity (inhalation) - LC50

Inhalation

No data were identified for the product as a whole. Data are for constituents:

Biosoluble fiberglass - Not applicable.

Anti-dust, antistatic and hydrophobic. - Not applicable.

Possible colorant. - Not applicable.

**Skin corrosion/irritation** May cause mechanical irritation to skin

**Serious eye damage/irritation** May cause mechanical irritation to eyes.

**Respiratory sensitization** No data were identified for this product or its constituents.

**Skin sensitization** No data were identified for this product or its constituents.

**Germ cell mutagenicity** No data were identified for this product or its constituents.

**Carcinogenicity** SWA / WES requirements exempt biopersistant fibres as defined by notes. Results from a

biopersistence test in line with the notes has shown that fibres in this product longer than 20  $\mu$ m have a weighted half-life less than 40 days and meet the "Nota Q" requirements, thus this product is not classified as a carcinogen. None of the components of this product

Reproductive toxicity are listed as a carcinogen.

Reproductive toxicity

Reproductive toxicity - Fertility No data were identified for this product or its constituents.

Developmental toxicity No data were identified for this product or its constituents.

Specific target organ toxicity -

single exposure

No data were identified for this product or its constituents.

Specific target organ toxicity -

repeated exposure

No data were identified for this product or its constituents.

Aspiration hazard Not relevant

**Inhalation** Mechanical irritation to upper respiratory tract.

IngestionNon-hazardous when ingested.Skin contactMechanical irritation to skin.Eye contactMechanical irritation to eyes.

Most important symptoms/effects Contact with skin, eyes and upper respiratory system may cause mechanical irritation.

Biosoluble Fiberglass is classified as a nuisance dust by OSHA.

#### SECTION 12: Ecological information

#### **General toxicity**

This product is not ecotoxic to air, water or soil, by composition.

#### Persistence and degradability

Óvirkt, ólífrænt efni með lífrænt innihald: 1 - 2 %

**Bioaccumulative potential** 

Bioaccumulative potential No bioaccumulation potential

partition coefficient Not relevant

Mobility in soil Not considered mobile. Less than 1% leachable organic carbon if landfilled.

#### Results of PBT and vPvB assessment

Not relevant

#### **Endocrine disrupting properties**

Not relevant

Other adverse effects None known.

#### **SECTION 13: Disposal considerations**

## 13.1. Waste treatment methods

**General information** Dispose of in accordance with regulations and procedures in force in country of use or

disposal.

Empty containers should be taken to an approved waste handling site for recycling or

disposal.

**Disposal methods**This product is not regulated under RCRA Hazardous Waste Regulations. May be disposed in

landfill. If unsure, contact the local office of the USEPA, your local public health department

or the local landfill regulators.

#### **SECTION 14: Transport information**

**General information**The product is not covered by international regulations on the transport of dangerous goods

(IMDG, IATA, DOT).

**UN number** Not applicable

UN proper shipping name Not applicable

**Transport hazard class(es)** No transport warning sign required.

Packing group Not applicable

**Environmental hazards** 

**Environmentally hazardous** None. **substance/marine pollutant** 

#### Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable

#### SECTION 15: Regulatory information

#### Regulatory status

This product is regulated as a nuisance dust under OSHA criteria.

In accordance with industry practice and voluntary commitments, Knauf Insulation has decided to continue to provide its customers with the appropriate information for the purpose of assuring safe handling and use of fiberglass throughout the product life.

#### US Federal regulations

SARA Section 302 Extremely Hazardous Substances Tier II Threshold Planning Quantities: Not regulated.

CERCLA/Superfund, Hazardous Substances/Reportable Quantities (EPA): Not regulated.

SARA 313 Emission Reporting: Not listed.

SARA Section 311/312 Hazard Classes: Not regulated.

#### **SECTION 16: Other information**

#### **General information**

All products manufactured by Knauf Insulation are made of non-classified fibers and are certified by EUCEB.

Products meeting EUCEB certification requirements can be recognised by the EUCEB logo printed on the packaging.

#### Further information can be obtained from

#### www.euceb.org

**Revision comments** 

ξ1

**Revision date** 5/23/2024 Supersedes version of 2/22/2017

**Revision:** 3.0

SDS number KI DP 109

In 2001, the International Agency for Research on Cancer (IARC) reclassified mineral wool fibres and Other information

fiberglass from Group 2B (possibly carcinogenic) to Group 3 «agent which cannot be classified as for

their carcinogenicity to humans». (See Monograph Vol 81, http://monographs.iarc.fr/)

This Safety Data Sheet / Product Data Sheet does not constitute a workplace assessment.

Information contained in this document represents the state of our knowledge regarding this product as of the date of issue of the document. Attention of users is drawn to possible risks taken when the product is used for other applications than the ones it has been designed for.
