

MEET ZERO NET ENERGY WITH LP WEATHERLOGIC®

Moisture Management Technology for a Better Build.

With LP WeatherLogic® Air & Water Barrier, you get home protection from the elements during construction and for years to come. This helps meet the new Zero Net Energy (ZNE) California building codes. ZNE building codes are defined as, on a source energy basis, the actual annual consumed energy is less than or equal to the on-site renewable generated energy.

PRODUCT BENEFITS

- Continuous exterior air and water barrier
- Improved building envelope to deliver greater indoor comfort and energy efficiency by withstanding temperature cycling
- Air barrier assembly test results (ASTM E2357): Pass ≤ 0.20 L/s-m² at 75 PA

ABOUT ZERO NET ENERGY

- All new residential construction in California must be Zero Net Energy in 2020
- All new commercial construction in California must be Zero Net Energy by 2030

4x8 ft., 4x9 ft., 4x10 ft. panels have an integrated, water-resistive overlay.

Acrylic seam and flashing tape features one of today's highest quality adhesives. AAMA 711-13 approved. A squeegee is included in every box of tape and used to help ensure a firm seal.
