

LEED Credit Product Checklist for Lyons Manufacturing Products

P-100 PRIMER

Existing Building Restoration or Rehab

MR Credit 5.1 and 5.2 – Regional Materials

P-100 PRIMER is not a Regional Material. Properly reported most liquid bonding agents are only going to be limited regional materials. In addition to the bonding agent manufacturer having to be regional the resin manufacturer would also need to be local.

IEQ Credit 4.1 and 4.2 – Indoor Low Emitting Materials

P-100 PRIMER has a maximum VOC emission of 2.34 g/l when used as an interior surface bonder. When used as integral admixture the emissions will be less.

New Construction

MR Credit 5.1 and 5.2 – Regional Materials

P-100 PRIMER is not a Regional Material. Properly reported most liquid bonding agents are only going to be limited regional materials. In addition to the bonding agent manufacturer having to be regional the resin manufacturer would also need to be local.

IEQ Credit 4.1 and 4.2 – Indoor Low Emitting Materials

P-100 PRIMER has a maximum VOC emission of 2.34 g/l when used as an interior surface bonder. When used as integral admixture the emissions will be less
