

MARINO WARE®

FIRE & SOUND

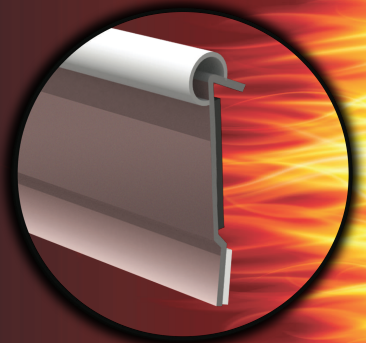

Innovative Fire-Stopping Solutions for Building Joints

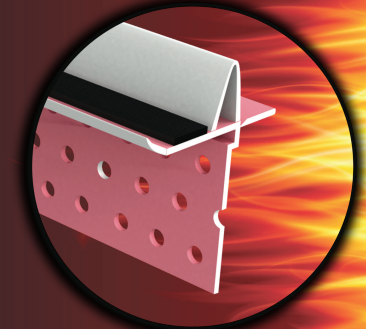

HOT ROD XL is a compressible intumescent firestopping that provides 1 and 2 hour fire-ratings for both dynamic and static joints according to UL-2079 5th edition (for both standard walls and shaft walls) and is sound tested according to ASTM E90, tested up to a STC 68.

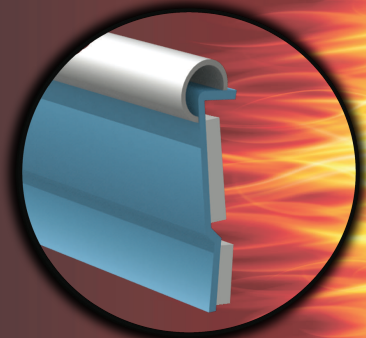

FIRE GASKET is a fire rated composite vinyl intumescent accessory that provides 1 & 2 Hour fire-ratings for both dynamic and static joints for both concrete and fluted deck assemblies, according to UL-2079 5th Edition.

FIRE BEAD is a fire rated wall mount deflection bead that provides 1- and 2-hour fire-ratings for both dynamic and static joints according to UL-2079 5th Edition (for both standard walls and shaft walls) and is sound tested according to ASTM E90.

SOUND GASKET is a vinyl accessory that provides smoke and sound ratings for both dynamic and static joints. The unique vinyl profile provides a seal along the inside leg to prevent sound flanking along the leg of the slotted track and framing screws while the outer bubble gasket will compress to seal against uneven concrete.
