

LEED v4.1

Sustainability at Marino\WARE®

Sustainability isn't a fleeting trend; it's the foundation of responsible building. At Marino\WARE, we don't just react to the demand for eco-conscious solutions – we lead the way. We partner with architects, designers, and contractors, providing innovative products and resources that empower them to build a greener future, together."

MR Credit: Building Product Disclosure and Optimization-- Environmental Product Declarations (1-2 points)

Encourage the use of products and material for which life-cycle information is available and that have environmentally, economically, and socially preferable life-cycle impacts.

Environmental Product Declaration (EPD)

Use at least 20 different permanently installed products sourced from at least five different manufacturers.

Environmental Product Declarations which conform to ISO 14025, 14040, 14044, and EN 15804 or ISO 21930 and have at least a cradle to gate scope.

- Product specific Type III EPD - Marino\WARE® has a third-party certification (Type III), including external verification in which Marino\WARE is recognized as the participant by the program operator and is valued as 1.5 products for purposes of credit achievements calculation.

MR Credit: Building Product Disclosure and Optimization-- Sourcing of Raw Materials (1-2 points)

Encourage the use of products and materials for which life-cycle information is available and that have environmentally, economically, and socially preferable life-cycle impacts. To reward project teams for selecting products verified to have been extracted or sourced in a responsible manner.

Recycled Content. Recycled content is the sum of post-consumer recycled content, based on weight. Products meeting recycled content criteria are valued at 100% of their cost for the purposes of credit achievement calculation. The recycled fraction of the assembly is then multiplied by the cost of the assembly to determine the recycled content value.

Marino\WARE Recycled Content:

Post-consumer Recycled Content 19.8%

Pre-consumer Recycled Content 14.4%

**Higher recycled content percentage may be available based on inventory.*

MR Credit: Building Product Disclosure and Optimization-- Material Ingredients (1-2 points)

Encourage the use of products and materials for which life-cycle information is available and that have environmentally, and socially preferable life-cycle impacts. To reward project teams for selecting products for which the chemical ingredients in the product are inventoried using an accepted methodology and for selecting products verified to minimize the use and generation of harmful substances. To reward raw material manufacturers who produce products verified to have improved life-cycle impacts.

Option 1. Material Ingredients Reporting

Health Product Declaration. Marino\WARE has a published, complete Health Product Declaration with full disclosure of known hazards in compliance with the Health Product Declaration Open Standard.

MR Credit: Construction and Demolition Waste Management (1-2 points)

To reduce construction and demolition waste disposed of in landfills and incineration facilities by recovering, reusing, and recycling material.

Option 1. Diversion (1-2 points)

Path 1 or Path 2.

Marino\WARE framing products and accessories are 100% recyclable. This contribution calculation must be made by the contractor.
