

INNOVATIVE Sound Solutions for Building Joints

Marino\WARE SOUND GASKET is a vinyl accessory that provides smoke and sound ratings for both dynamic and static joints. The unique vinyl profile provides a seal along the inside leg to prevent sound flanking along the leg of the slotted and framing screws while the outer bubble gasket will compress to seal against uneven concrete.

- Mechanically or adhesively fastened to the leg of the track. It features a 3/8" hollow bubble gasket on the upper corner that is easily compressed to seal against uneven concrete or fluted decks. Once properly installed the Sound Gasket provides an unbreakable seal, to provide long term smoke and sound protection.
- Takes the place of acoustic sealant at building joints.
- Can be used on head-of-wall, bottom-of-wall, and wall to wall building joints.
- Tested for air leakage for compliance with Section 713.6 of IBC and CBC.
- Manufactured as a light blue color vinyl that is easily identified by the inspector.
- Installs fully cured and has no installation temperature or humidity restrictions.
- Installs on both sides of the wall and comes in 10' lengths.
- Can be installed in the field or pre-installed to the track prior to installing track in place.
- Provides up to 1" overall unencumbered movement.
- Premium STC ratings.
 - STC 51 on 3-5/8" 20 EQ studs unbalanced walls.
 - STC 55 on 3-5/8" 20 EQ studs balanced walls
