
Features & Benefits for Marlite Doors and Frames

Marlite High Pressure Laminate (HPL) doors are highly attractive yet impervious to everyday abuse common in high-traffic areas. They are tough, durable, and offer a wide range of finishes needed for today's environments.

Key Benefits

- Door pre-hung in frame for jobsite convenience
- Engineered design ensures a perfect door and frame fit
- 6'8" high Marlite frames possess fully reversible hanging
- Lifetime warranty for life of installation
- If damage occurs, the damaged part can be replaced instead of replacing the whole frame
- Adjustable aluminum frame will not rust, rot, deteriorate, and never has to be repainted
