

Induro™

HPL-faced FRP

Wall protection for high traffic areas.

Bang!

Tough surface prevents wall damage.

"Spotless"

Eliminates the need for spot repairs.

Slam Dunk!

The easiest, most affordable way to apply HPL to walls.

Stands up. To just about anything.

What is HPL Faced FRP?

The ultimate in wall protection, High Pressure Laminate (HPL)-faced FRP is an exceptionally wear resistant panel created through an exclusive process of thermally bonding melamine impregnated surfacing materials directly to the FRP core. Designed to match and coordinate with popular high pressure laminates, the panels are available in a wide array of woodgrains, solid colors and abstract prints.

Scratch Resistant Test

ASTM D2197

Competitive Rigid Plastic Wall Panel

HPL-faced FRP Panel

Impact Test

ASTM D5420-04 product on 1/2" drywall
